Annual Report 2019

DIRECTORS' REPORT TO THE SHAREHOLDERS

The directors of your Company are pleased to present the Annual Report and the audited financial statements for the year ended June 30, 2019 together with auditors' report thereon.

Economic And Industrial Overview

Stabilization and improvement measures taken by government as a part of its agenda for economic reforms as well as in light of IMF Program have helped in lowering the trade deficit, which in addition to higher inflows of workers' remittances and compression in imports resulted in an even larger reduction in current account deficit. However, these measures, although critically essential, had some short-term costs in terms of larger fiscal deficit, higher inflation and lower GDP growth and accordingly for fiscal year (FY) 2018-19, Pakistan's GDP growth plunged to 3.29% and average inflation rose to 7.3% in current FY as compared to an average of 3.9% in last FY.

The agriculture, manufacturing (industry) and services sectors showed stable or enhanced performance with growth rate of 0.85%, 1.40% and 4.71% respectively. Large Scale Manufacturing (LSM) growth declined to 2.93% in contrast to growth of 6.33% during last FY. The decline in LSM is attributed by lower expenditure on Public Sector Development Program (PSDP), muted private sector construction activities and lower consumer spending on durable goods among others. The rise in inflation rates along with the long overdue PKR devaluation acted as catalysts in deteriorating the economic condition of the country. Net Foreign Direct Investment (FDI) also took a hit as it declined by a staggering 52% in FY 2018-19 amounting to US\$ 1.67 billion against US\$ 3.47 billion last year. However, amid decline in FDI, external financing from bilateral sources were quite helpful. Meanwhile, Pakistan has also improved its position on ease of doing business index and jumped to 136th position as compared to 147th position last year. It will surely attract foreign investors and boost FDI in the near future.

Nonetheless, the shrinkage in the Current Account Deficit (CAD) has proved to be silver lining in the current economic condition of the country. The CAD shrunk by 32.11% to US\$ 13.51 billion in FY 2018-19 from US\$ 19.89 billion in FY 2017-18. This is mainly attributed to healthy remittance inflows which grew by

9.68% and low import bills which squeezed by 7.43%. Exports showed slight growth of 2.20%. Although the external balance has improved, the net foreign exchange reserves however declined by 25.45% to US\$ 7.28 in FY 18-19 from US\$ 9.77 during the same period last year. The corrective measures put into play have not completely bore fruit as yet as exports seem to grow at a lower rate than expected, however the decline in imports have paved way for competitiveness in the local industry.

Textile Industry

In 2018-2019, Pakistan's largest export industry was the textile industry with hosiery and readymade garments contributing 544 billion PKR or 3.47 billion USD to total trade. Although the textile industry was the biggest contributor to country's exports, the industry itself did not demonstrate any impressive performance. In fact, the textile industry contracted by 0.2% in FY 2018-19 as compared to a growth of 0.5% last year. The growth subdued on account of lackluster performance of the cotton yarn and cotton cloth. Cotton production declined by 17.5% whereas the area under cultivation for cotton shrunk by 12.1% reflecting the performance of the crop on which the textile industry is heavily relying. Textile export increased by 1.4% to US\$ 13.56 billion in FY 2018-19 with knitwear/ bed wear and readymade garments export increased by 4.67% and 3.63% respectively.

The Chinese investors recognizing Pakistan's potential as the world's fourth largest cotton producer have signed a cooperation framework agreement with government of Punjab with keen interest in developing business in the textile sector of Punjab that may change the textile landscape of the country.

Company's Market Share In Exports

The Company is among the country's largest composite textile mills and a leading exporter of value added textile products. The Company has contributed approximately 10% in the bed wear exports of the country.

Performance Overview

Key performance indicators (KPI's) which we monitor include:

Description	Units	2019	2018
Export sales	Rs. in millions	32,216	28,717
Local sales	Rs. in millions	25,026	16,620
Gross profit	Rs. in millions	11,982	9,305
Profit before tax (PBT)	Rs. in millions	4,008	2,328
Profit after tax (PAT)	Rs. in millions	3,609	2,075
EBITDA	Rs. in millions	7,157	4,969
Earnings per share (EPS)	Rupees	10.12	5.82
Debt to equity	Time	0.58	0.55
Current ratio	Time	1.16	1.14
Break-up value per share	Rupees	43.01	35.40

Your Company was blessed with the required volume of export orders as well as extended demand in local and retail sector which helped in full utilization of operational capacities and absorption of fixed production overheads. During FY 2018-19, the management focused on profitable avenues, maximizing efficiency in production activities and cost rationalization through various measures. These endeavors as well as new and BMR investments made in the past few years proved beneficial as sales increased by 26% and gross profit increased by an impressive amount of PKR 2.67 billion which is a 28% increase as compared to last year gross profit. Accordingly, profit before tax increased by 72% exhibiting increase from Rs. 2,328 million to Rs. 4,003 million, while profit after tax increased from Rs. 2,075 million to Rs. 3,646 million. Resultantly, the Company's EPS improved from Rs. 5.82 to Rs. 10.12.

The management continued with its policy of taking advantage of historically low & subsidized mark-up rates, which would remain locked over the term of loan. Hence, net long-term financing was enhanced by 28% during the year to fund BMR investments and acquire latest technology in various production. As at the year ended June 30, 2019, debt to equity and financial leverage ratios were at 0.58 (2018: 0.55) and 1.89 (2018: 1.85) respectively. The investment has yielded extra margin to the Company both during the year under review and should yield favorable results in the coming quarters of the ensuing financial year. Considering the Rupee Dollar subsequent party and prices of raw material, management invested substantial amount in building raw material

inventories, which has increased the amount invested in working capital. At the year ended June 30, 2019, working capital was Rs. 4,818 million as compared to Rs. 3,192 million as at last year. Despite of increase in working capital the current ratio improved to 1.16 (2018: 1.14).

Subsequent Events

The Board of Directors of the Company in its meeting held on October 1, 2019 has proposed the following:

a) Dividend

Pay cash dividend @ Rs. 2.50 per share i.e. 25% for the year ended June 30, 2019.

b) Bonus Shares

Issuance of bonus shares in the proportion of "one" share for every "five" shares held i.e. 20%.

Capital Structure

During the year there was no change in paid-up capital, however, overall shareholders' equity increased by Rs. 2,712 million to Rs. 15,333 million as a result of the profits retained in the business.

Funds Management

The company managed to meet its cash obligations including debt servicing and payment of dividend to shareholders through effective and efficient monitoring of working capital requirements and cash flow forecasts. The Company manages liquidity risk by maintaining sufficient cash and ensuring that adequate short term credit facilities are available. At the year-end, the Company had Rs. 3,233 million (2018: Rs. 6,873 million) unutilized credit lines and Rs. 492 million (2018: Rs. 470 million) cash in hand and balances in banks to cover any temporary mismatches.

Business Segments

Spinning

The spinning segment reaped benefits of investments in latest technology and capacity enhancement made during previous as well as current year as sales grew by Rs 2,779 million (34%) as compared to last year.

Management Objectives and Strategies

Gul Ahmed has been one of the leading names in the textile industry of Pakistan for decades. This has been made possible only through the management's commitment to increase shareholders' wealth while improving quality standards, use of latest technology and creativity. However, this has not deterred the company in its service to the environment and society.

The objectives and related strategies are discussed separately in detail on page 21 of the Annual Report.

Materiality Approach

Determining materiality levels is subjective and the methodology varies from one organization to the other. Authorization for transactions and delegation of powers have been clearly defined and documented through formalized processes in the Company. The Company has an approved materiality policy which is reviewed annually to confirm its relevance.

Risk Management and Opportunities

The Company operates in a challenging environment as discussed and analyzed in detail in PESTEL and SWOT analysis on page 74 and page 75 of the Annual Report. The management has set up a robust mechanism for identification, evaluation and mitigation of risks which enables smooth operations and ensures that focus remains on business growth.

a) Credit Risk

The company is exposed to the risk of default of receivables against its local sales (excluding retail outlet sales which are only on cash basis). This is managed through proper due diligence of customers to whom credit is extended. Other debts are managed through prepayments or adequate securities.

b) Market Risk

The company is subject to risk of changes in prices of its primary raw materials i.e. cotton & yarn. This is managed by planning stock levels and purchasing through various sources at time and intervals found appropriate. Further, risk of exchange rate fluctuation is managed through use of financial instruments such as forward contracts, bills discounting, FCY credit, monitoring of net exposure etc.

c) Liquidity Risk

The Company has arranged sufficient working capital lines with various banks to cater to the mismatch between receipts of sales and payments for purchases, meet its obligations and ensure normal business operations.

The Risk Management System of the Company comprises:

The Board Of Directors And Its Committees

The Board periodically reviews major risks faced by the business and takes action where required. Whereas, the Audit Committee reviews financial and compliance risks. The Remuneration and Human Resource Committee reviews compensation and reward policies to ensure that these are competitive and are effective for retention and attraction of talented and experienced staff.

The remuneration of non-executive directors is fixed by the BOD keeping in view current market pay rates and business needs of the Company.

Details with respect to the names of directors, composition of the BoD and committees are mentioned on page 34 of the Annual Report.

Policies and Procedures

The Board has established and implemented effective procedures and controls for all business and support cycles after identification of related risks. These are reviewed periodically and updated in line with latest risk assessment and risks faced by the business.

Information and Monitoring System

Latest information systems are in place that provide information timely and accurately, thus enabling the management to continuously and effectively monitor results and variances.

Internal Audit

The internal audit function has been outsourced by the Company which reports to the Audit Committee on the effectiveness of internal controls and suggests improvements required therein. Periodic audit reports are submitted to the Audit Committee for their perusal.

Risk management is discussed in detail on page 76 of the Annual Report.

Human Resource (HR)

Unique and extraordinary products and services provide competitive advantage, but the one advantage that stands the test of time is our people. The commitment and drive of our employees to innovate, lead and achieve has contributed the most towards our success. Our aim is to maintain a high performing organization that attracts, develops and retains talented resources.

Personal development of our employees is facilitated by empowering them with bigger roles and challenging assignments, as well as through coaching, mentoring and a challenging appraisal system.

We strongly believe in an inclusive and diverse working environment and that this has been pivotal in the Company's success over the years.

Information Technology (IT)

IT has become a vital and integral part of every business and is more than just a support function to maximize competitive edge. Understanding its importance, the company has also invested in its IT framework which is upgraded as and when required. Better systems and use of technology has strengthened the control environment and made financial / operational reporting accurate and timely, while providing an opportunity to continuously improve business processes and innovate.

The Company implemented "Microsoft Dynamics 365" for its retail operations to meet the demands of rapidly changing retail business environment. Other operations of the Company use Oracle EBS as their prime system and platform for driving information for strategic and operational decision making. The emphasis is on process improvements and establishment of internal controls.

IT Governance Policy

IT governance policy is in place to safeguard against loss and unauthorized access of information as well as to address Cyber Security Risks. Compromised protections are also monitored and improved through this policy. The objective of this policy is to guide the creation, storage, use, archiving and deletion of information.

Considering the needs of users and the role of IT in the success of our business, the Company regularly reviews and upgrades the management information system which is geared to:

- monitor and improve performance;
- provide up-to-date information on which to base strategic decisions;
- verify and demonstrate departmental effectiveness; and
- Create service-wide checks and balances to safeguard assets and ensure accountability.

Business Continuity Plan (BCP)

We are amongst the largest composite textile mills in the industry, having several production locations running with systems, fixed assets and inventories worth billions of rupees. Accordingly, we realize that some disasters may cause severe losses to the company and its operations.

Hence, a Business Continuity Plan (BCP) is in place which is an action plan formulated in advance with the aim of preventing the stoppage of important and crucial company operations or restoring and restarting them in as little time as possible if they are interrupted by the occurrence of an unexpected event such as a natural disaster or an incident. A comprehensive schedule has been implemented to impart trainings to employees including mock exercises to prepare for any situation, where business continuity may be compromised.

Safety of Records

Records include books of accounts, documentation pertaining to secretarial, legal, contractual, taxation and other matters, which have been archived where needed, for periods as legally required in a well preserved and secure manner. We have also outsourced our record keeping operations after ensuring its safe retention and easy retrieval.

EMC VNX series storage has been successfully deployed and remote backup sites of all primary data have also been established.

Corporate Social Responsibility

Corporate social responsibility is discussed in detail on page 52 of the Annual Report.

Holding Company

The Company continues to be the subsidiary of Gul Ahmed Holdings (Private) Limited (the Holding Company) which owns 67.10% shares of the Company.

Investors' Grievance and Complaints

The Company allows full access to all shareholders including potential investors, to call for relevant information or details on Company's operations, in addition to details relating to their specific investment, dividend or circulation of regulatory publications by the Company. The required information is provided immediately or a query/grievance is resolved promptly in accordance with the statutory guidelines.

Investor grievances are managed centrally through an effective grievance management mechanism.

Board's Evaluation

Complying with Code of Corporate Governance, 2017 the Board has approved a comprehensive mechanism for evaluation of its performance. The Company has introduced a questionnaire covering the Board's scope, objectives, function and Company's performance and monitoring. The Board has evaluated all factors based on inputs received from every director.

Conflict of Interests

All the directors exercise their due rights of participation in the Board proceedings and decisions are made through consensus. Concerns of the Board members on any agenda point are duly noted in the minutes of the meeting.

Further, there is an approved Code of Business Ethics which, in addition to compliance of regulatory requirements, requires formal disclosure of interests if any, to allow avoidance of known or perceived conflict of interests.

Review of Related Party Transactions

In compliance with the CCG and other applicable laws and regulations, details of all related party transactions are placed periodically before the Audit Committee and upon their recommendation, the same are placed before the Board for review and approval. The details of transactions where majority of directors are interested are also placed annually before the members for approval.

CEO'S Performance Review

Each year the Board establishes a list of goals and

strategies aligned to achieve the mission of the Company. Each milestone is thus measured in order to assess performance. This helps in assessing how each objective is contributing towards the growth of the Company. The factors to be evaluated are adherence to the mission, long and short term objectives, ensuring long term profitability, increasing shareholders' value and ensuring good governance and statutory reporting. The Board provides honest feedback in order to strengthen and develop the role of the CEO.

Role Of Chairman and CEO

Chairman acts as the custodian of the Company on behalf of the Board and stakeholders. He heads the Board of Directors and is responsible for ensuring the Board's effectiveness. The chairman ensures the development of business and protection of goodwill of the Company and its subsidiaries. He also ensures the balance of membership of the Board in terms of versatile exposure to various business operations and economic and business acumen.

CEO has the prime responsibility of driving for achievement of the Company's vision, mission and its long term goals. He acts as a link between the Board and management of the Company and communicates with the Board on behalf of the management. The CEO is responsible for day to day management of the Company's affairs and execution of long term strategy, plans and budgets to increase shareholders' value.

CEO also represents the Company to shareholders, government authorities and the public. He is the leader and decision maker who motivates employees, drives change within the Company and takes decisions to achieve targets.

Issues Raised In Last Annual General Meeting (AGM)

Consolidated Financial Statements

Consolidated Financial Statements for the year ended June 30, 2019 of the Company and its subsidiaries Gul Ahmed International Limited (FZC) UAE, GTM (Europe) Limited UK, GTM USA Corporation USA, Sky Home Corporation USA, and Vantona Home Limited, UK are attached.

Pattern of Shareholding

Please refer page 184 of the Annual Report.

Forward Looking Statement

The business of the Company is directly linked with economic activity in Pakistan and its exporting countries. The management is geared up for challenges such as uncertainties in the economic environment, fluctuation in exchange rates and tough competition.

Accordingly, strategies are in place and are regularly reviewed to ensure that the Company stays on the path of growth and progress. We believe there is further potential in the yarn segment and retail business and will look to increase our market share. The focus is on stringent controls on the cost of production mainly through modernizing and replacement of old machines, lesser interruptions and abnormal wastages, and process improvements using the Kaizen approach. We are optimistic that the

Company's performance will improve further in the next FY, both in terms of revenue and profits.

Future Outlook

The year 2018-19 was not promising at all in view of lot of challenges and struggles for Pakistan owing to the economic, political and diplomatic situation. The economic growth was slow and disappointing but now to turnaround in the coming fiscal year is expected. With the Government's determination to bring the economy on smooth road for sustainable sailing and effective monitoring by IMF and other financing agencies we too are optimistic about positive changes as well as boost in the economy.

The textile industry, one of the major contributors in LSM, needs to focus on value added products, as there is potential in the international market. However, this would only be possible with the support of the Government with commitment to policy implementation, improved energy supply and helping exporters to build competitive cost advantage.

For the Company, investment in the balancing and modernisation of production machinery, and measures to rationalise costs will bear fruit in the next financial year as well. Production efficiency would improve further, and we expect that focus on retail and spinning segments will boost revenues. Hence, we are looking forward to the next year with immense optimism and enthusiasm.

Acknowledgement

We acknowledge and appreciate the efforts of the employees and valuable support of our customers, financial institutions, shareholders and members of the board of directors.

۲۲ مستقبل کے خدو خال:

اقتصادی، سیاسی اور سفارتی صورتحال کی بناء پر پاکستان کو درپیش بہت سارے چیلنجوں اور جدوجہد کے پیش نظر سال 2018-19 بہت زیادہ امید افزا نہیں رہا۔ معاشی نمو کی رفتارست اور مایوس گئی تھی تاہم آئندہ مالی سال میں بہتری کی امید ہے۔ آئی ایم ایف اور دیگر مالیاتی اداروں کے ذریعے مستحکم بہاؤ اور موثر نگرانی سے معیشت کو ہموار شاہراہ پر لانے کے لئے حکومت کے عزم کے ساتھ، ہم بھی معیشت میں مثبت تبدیلیوں کے ساتھ ساتھ معیشت کے فروغ کے لئے پُر امید ہیں۔

بڑے پیمانے پر مینوفیکچرنگ (LSM) کے شعبے میں ٹیکسٹائل کا شعبہ اہم ترین ہے۔ اس میں ویلیو ایڈڈ پراڈکٹس پر توجہ مرکوز رکھنے کی ضرورت ہے کیونکہ اس کی مارکیٹ میں خاصی طلب نظر آتی ہے۔ تاہم ایسا صرف اس وقت ممکن ہے جب حکومت مکمل سپورٹ مہیا کرے پالیسیوں کا نفاذ یقینی بنائے، ٹوانائی کی سپلائی بہتر ہو اور برآمد کنندگان کو مسابقتی فائدہ اٹھانے میں معاونت کرے۔

کمپنی کے لئے پروڈکشن مشینری میں جدت اور تجدید کے لئے سرمایہ کاری اور لاگت کے اخراجات کو کم کرنے کے لئے عوامل آئندہ آنے والے سالوں میں فائدہ مند ثابت ہوں گے، پیداوار کی کارکردگی میں مزید بہتری آئے گی، نیز ہمیں توقع ہے کہ سٹیل اور اسپانگ سیکٹ پر توجہ مرکوز کرنے سے ہمارا یونیورسٹی بہتر ہو جائے گا۔ ہم آئندہ آنے والے سال کے لئے نہایت مثبت سوچ کے ساتھ سرگرم عمل ہیں۔

تسلیم و تحسین:

ہم اپنے ملازمین کی کاوشوں اور ساتھ ہی اپنے کسٹمرز، مالیاتی اداروں، حصص یافتگان اور بورڈ آف ڈائریکٹرز کے اراکین کی جانب سے معاونت کو سراہتے ہوئے ان کا شکریہ ادا کرتے ہیں۔

انتظامی مقاصد اور حکمت عملی:

گل احمد کی دہائیوں سے پاکستان کی ٹیکسٹائل کی صنعت میں ایک اہم نام رہا ہے۔ یہ سب کچھ صرف حصص یافتگان کے سرمائے میں بڑھتا رہا جس نے بھجنت کے عزم اور لگن نیز جدت، کوالٹی کے معیار اور بہترین ٹیکنالوجی کے استعمال کو مزید بہتر بنانے کے باعث ہی ممکن ہو سکا ہے۔ تاہم، اس سے کمپنی کی راہ میں ماحول اور سوسائٹی کے لئے اپنی خدمات پیش کرنے میں کوئی رکاوٹ حائل نہیں ہے۔

سالانہ رپورٹ کے صفحہ نمبر 21 پر مقاصد اور متعلقہ حکمت عملیوں کے حوالے سے علیحدہ بحث کی گئی ہے۔

نقطہ نظر:

مادیت (Materiality) سطحوں کا تعین کرنا مشروط کام ہے اور یہ مختلف اداروں کے لحاظ سے مختلف ہوتا ہے۔ مالی لین دین اور اختیارات کی تفویض کے حوالے سے اجازت واضح طور پر جاری کی گئی ہے۔ اور اس پر کمپنی میں تیار کردہ طریقہ کار کے مطابق عمل کیا جاتا ہے۔ کمپنی نے مادیت (Materiality) کے حوالے سے پالیسی کی منظوری دی ہے جس پر مطابقت کے لئے سالانہ بنیاد پر نظر ثانی کی جاتی ہے۔

رسک مینجمنٹ اور سوانح:

کمپنی ایک چیلنج والے ماحول میں کام کرتی ہے، جس کی PESTEL اور SWOT تجزیہ پر مبنی تفصیل اور سیر حاصل گفتگو سالانہ رپورٹ کے صفحہ نمبر 74 اور 75 پر موجود ہے۔ اس لئے انتظامیہ نے ان اندیشوں کی علیحدہ سے شناخت تخلیق اور انہیں بروقت اٹھانے کے لئے ایک مضبوط نظام مرتب کیا ہے جو ہموار آپریشن کو ممکن بناتا ہے اور اس بات کو بھی یقینی بناتا ہے کہ توجہ کا دوبارہ ترقی پر مرکوز ہے۔

کمپنی کا رسک مینجمنٹ سسٹم مندرجہ ذیل پر مشتمل ہے:

(الف) کریڈٹ رسک:

کمپنی اپنی مقامی فروخت کے لئے وصول کنندگان کے ذیابطہ ہو جانے کے خطرے سے نمٹنے کے لئے بالکل تیار ہے (ریشیل بیلز کے علاوہ جو کہ صرف نقد بنیاد پر ہیں)، اس طرح کے امور کا انتظام مکمل مطلوبہ احتیاط سے ان کسٹرز کے ساتھ کیا جاتا ہے جن کے لئے قرض کو بڑھایا جا رہا ہو۔ دیگر واجبات پہلے سے کی جانے والی ان ادا کیوں یا مناسب سیکورٹیز کے ساتھ کی جاتی ہیں۔

(ب) مارکیٹ رسک:

کمپنی کا منافع اپنے بنیادی خام مال جیسے کپاس اور سوت کی قیمتوں میں تبدیلی کی شرح سے مشروط ہے۔ اس کا انتظام اسٹاک لیوڈز کی پلاننگ اور مناسب وقت اور وقتے پر مختلف ذرائع سے خریداری کے ذریعے سے کیا جاتا ہے، مزید یہ کہ ایکٹیو ریٹ میں اتار چڑھاؤ فنانشل انشورمنٹس جیسے فارورڈ کنٹریکٹس، بلازڈ سٹریٹجی، FCY، کریڈٹ اور نیٹ ایکسیچوڈز کی مانیٹرنگ وغیرہ کے ذریعے کیا جاتا ہے۔

(ج) لیکویڈیٹی رسک:

کمپنی نے ادائیگیوں اور وصولیوں کے توازن کو برقرار رکھنے کے لئے وافر سرمائے کا انتظام اور متعدد اہم بینکوں کی معاونت حاصل کر رکھی ہے تاکہ عمومی کاروباری آپریشنز وغیرہ کو یقینی بنایا جاسکے۔

کمپنی کا رسک مینجمنٹ سسٹم مندرجہ ذیل پر مبنی ہے۔

بورڈ آف ڈائریکٹرز اور اس کی کمیٹیاں:

بورڈ کاروبار کو درپیش اہم نقصان کے اندیشوں پر وقتاً فوقتاً نظر ثانی کرتا ہے اور جہاں ضرورت درپیش ہو وہاں کارروائی کرتا ہے۔ جبکہ آڈٹ کمیٹی مالی اور کمپلائنس رسک پر نظر ثانی کرتی ہے۔ مشاہرہ اور افرادی قوت کے حوالے سے قائم کمیٹی مندرجہ ذیل پر مبنی ہے تاکہ عمیلوں کو برقرار رکھنے اور رغبت دلانے کے لئے مارکیٹ سے مطابقت کے عمل کو یقینی بنانے کے لئے مشاہرہ اور ریوارڈ کی پالیسی پر نظر ثانی کرتی ہے۔

نان ایگزیکٹو ڈائریکٹرز کے مشاہرے حالیہ مارکیٹ کی ادائیگی کی شرح اور کمپنی کی کاروباری ضروریات کو مد نظر رکھتے ہوئے بورڈ آف ڈائریکٹرز کی جانب سے مقرر کئے گئے ہیں۔

ڈائریکٹران کے ناموں کی تفصیلات، بورڈ آف ڈائریکٹرز اور کمیٹیوں کی تشکیل سالانہ رپورٹ کی صفحہ نمبر 34 پر مندرج ہے۔

پالیسیاں اور طریقہ کار:

بورڈ نے متعلقہ خطرات کی شناخت کے بعد مخصوص پالیسیاں اور طریقہ کار وضع کئے ہیں اور ان پر عملدرآمد کیا ہے جس سے تجارت کو درپیش نئے خطرات کی تشخیص کا وقتاً فوقتاً جائزہ لے کر نئے اقدامات کئے جاتے ہیں۔

معلوماتی اور گہدہداشت کا انتظام:

ہمارا جدید معلوماتی نظام بروقت اور درست معلومات فراہم کرتا ہے جو انتظامیہ کی موثر انداز میں نتائج اور تغیرات کی جانچ میں معاونت کرتا ہے۔

انٹرنل آڈٹ:

اندرونی معاملات پر موثر کنٹرول رکھنے کے لئے انٹرنل آڈٹ فنکشنز کی رپورٹ آڈٹ کمیٹی کو پیش کی جاتی ہے اور ساتھ ہی بہتری کے لئے مزید موزوں اقدامات کی تجویز بھی دی جاتی ہے۔ آڈٹ رپورٹس، آڈٹ کمیٹی کے پاس جمع کروائی جاتی ہے۔

رسک مینجمنٹ کے حوالے سے مزید تفصیل صفحہ نمبر 76 پر ہے جو سالانہ رپورٹ کا جزو ہے۔

افراد کی قوت (HR):

منفرد اور غیر معمولی پراڈکٹس اور سروسز مسابقتی فائدہ پہنچاتی ہیں، تاہم اس کا سب سے بڑا فائدہ ہمارے لوگوں کو ہوتا ہے۔ جدت، کاوش اور حصول کے لئے ہمارے ملازمین کا خلوص اور لگن ہی ہماری کامیابی ہے۔ ہمارا مقصد ایک ایسے اعلیٰ کارکردگی والے ادارے کی تخلیق ہے جو فن مہارت کے حامل افراد کو موقع فراہم کرتے ہوئے انہیں اپنے ساتھ جوڑے رکھے۔

ہمارے ملازمین کی افرادی تربیت و ترقی کے لئے انہیں اعلیٰ عہدوں کے ساتھ اختیارات تفویض کئے جاتے ہیں تاکہ مشکل مراحل میں فیصلہ سازی پر عبور حاصل ہو۔ انہیں مسلسل رہنمائی بھی مہیا کی جاتی ہے۔

ہم مکمل طور کام کے باہمی تعاون اور متنوع ماحول پر یقین رکھتے ہیں اور یہی ہماری کامیابی کا اہم سبب ہے۔

انفارمیشن ٹیکنالوجی (IT):

آئی ٹی ہر کاروبار کا ایک اہم اور لازمی جزو بن گیا ہے، نیز سہولت کے حصول کے لئے یہ ایک اہم پیش قدمی بن چکا ہے۔ اس کی اہمیت کے پیش نظر کمپنی اپنے آئی ٹی فریم ورک میں بھی سرمایہ کاری کرتی ہے جسے جب اور جہاں بھی ضرورت درپیش ہو آپ گریڈ کیا جاتا ہے۔ بہتر سسٹمز اور ٹیکنالوجی کے استعمال نے کنٹرول انوائزمنٹ کو مضبوط کیا ہے فنانشل / آپریشنل رپورٹنگ کو موثر اور بروقت بنایا ہے، جبکہ کاروبار کو مسلسل بہتر بنانے اور جدت لانے میں بھی معاونت کرتا ہے۔

کمپنی نے ریشیل برنس کے تیزی سے تغیر پذیر ہوتے ماحول کی طلب کی تکمیل کے لئے اپنے ریشیل آپریشن میں ٹیکنالوجی و سافٹ ویئر کے 365 ٹیکنائٹس کو اپنایا ہے۔ کمپنی کے دیگر آپریشنز، اسٹریٹجک اور آپریشنل فیصلہ سازی کی رواں معلومات کے پلیٹ فارم کی صورت میں اور بیکل EBS بطور پرائم سسٹم استعمال کیا جاتا ہے۔ عوامل میں بہتری اور اندرونی کنٹرول کے قیام پر زور دیا گیا ہے۔

آئی ٹی کے نظم و ضبط کی پالیسی:

آئی ٹی کے نظم و ضبط کی پالیسی نقصانات اور معلومات تک غیر مجاز رسائی کے خلاف حفاظت کے ساتھ ساتھ سامبر

سیکیورٹی کے خطرات سے نبرد آزما ہونے کی پالیسی ہے۔ اس پالیسی کے ذریعے سے تحفظات کی نگرانی اور ان میں بہتری لائی جاتی ہے۔ اس پالیسی کا مقصد تخلیق، اسٹوریج، استعمال، آرکائیونگ کی تشخیص کی راہنمائی کرتا ہے۔ استعمال کنندگان کی ضرورت اور کاروبار کی کامیابی میں آئی ٹی کے کردار کے پیش نظر کمپنی باقاعدگی سے مینجمنٹ انفارمیشن سسٹم پر نظر ثانی کرتے ہوئے اسے بہتر بناتی ہے جس سے مندرجہ ذیل فوائد حاصل ہوتے ہیں۔

- رواں کارکردگی کی نگرانی اور اس میں بہتری۔
- تازہ ترین معلومات کی فراہمی، جس کی بنیاد پر منصوبے کے تحت فیصلہ سازی ہو۔
- شعبوں میں کارکردگی کی تصدیق اور ان کا ثبوت حاصل کرنا، اور
- انکشافات کے تحفظ اور احتساب کو یقینی بنانے کی غرض سے سروس کے لحاظ سے چیک اینڈ بیلنس کے نظام کی تخلیق۔

کاروبار کو جاری دساری رکھنے کا منصوبہ (BCP):

جیسا کہ ہمارا شمار ٹیکنال کے شعبے میں سب سے بڑی جامع ٹیکنال ملز میں ہوتا ہے، جس کی متعدد پروڈکشن لوکیشنز پر قائم ٹیکنالیاں ایک مربوط نظام کے تحت، غیر متعلقہ اثاثہ جات اور اداروں روپے کی انویسٹرز کے ساتھ کام کر رہی ہیں اور اس کے مطابق، ہم یہ سمجھتے ہیں کہ کسی قسم کی آفات ہمارے آپریشنز کو شدید نقصان پہنچا سکتی ہیں۔

کاروباری کو جاری رکھنے کے منصوبے کے ذریعے کسی بھی قسم کی قدرتی آفت یا دیگر کسی واقعات کی صورت میں کاروبار جاری رکھنے کو یقینی بنایا جاتا ہے، ساتھ ہی شدید نوعیت کی خرابی کے حامل سسٹم اور پراسس کو چلانے کی سہولت بھی فراہم کرتا ہے۔ ہم اپنے ملازمین کو کسی بھی قسم کے حالات سے نبرد آزما ہونے کے لئے (جس میں کاروبار کو جاری رکھنے پر توجہ دینا جاسکتا ہے) نہ صرف تربیت دیتے ہیں بلکہ اس کی مکمل مشق بھی کرواتے ہیں۔

ریکارڈز کی حفاظت:

ریکارڈز، جس میں اکاؤنٹس کی کتب، بیکریٹریئل، لیگل، کنٹریکٹس، ٹیکسٹس اور دیگر معاملات کی دستاویزات شامل ہیں، کو مدتوں کے لئے قانونی ضرورت اور حفاظتی نقطہ نظر سے محفوظ کر دیا جاتا ہے۔ ہم نے اپنے ریکارڈ کیپیٹنگ آپریشنز کو اس کی محفوظ سنبھال اور آسان حصول کو یقینی بنانے کے بعد بیرونی ذرائع کی خدمات بھی حاصل کی ہیں۔

اس حوالے سے EMC VNX سیریز کا کامیابی کے ساتھ اطلاق کیا جا چکا ہے اور تمام ابتدائی ڈیٹا کا ریموٹ بیک اپ بھی قائم کیا جا چکا ہے۔

ادارے کی سماجی ذمہ داری:

ادارے کی سماجی ذمہ داری کی تفصیل صفحہ نمبر 52 پر دی گئی ہے جو کہ سالانہ رپورٹ کا جزو ہے۔

ہولڈنگ کمپنی:

گل احمد ہولڈنگز (پرائیویٹ) لمیٹڈ (ہولڈنگ کمپنی) کا ذیلی ادارہ ہے۔ یہ ایک ایسی ہولڈنگ کمپنی ہے جو کمپنی کے 67.10 فیصد حصص کی حامل ہے۔

شیر ہولڈرز کے لئے ڈائریکٹرز رپورٹ

آپ کی کمپنی کے ڈائریکٹرز نہایت مسرت کے ساتھ 30 جون 2019 کو ختم ہونے والے مالی سال کے لئے سالانہ رپورٹ اور پڑتال شدہ مالیاتی حسابات بعد آڈیٹرز رپورٹ پیش کر رہے ہیں۔

معاشی اور صنعتی جائزہ:

حکومت کی جانب سے اس کے ایجنڈے کے کلیدی جزو کے طور پر اقتصادی اصلاحات اور آئی ایم ایف پروگرام کی روشنی میں استحکام اور بہتری کے اقدامات نے تجارتی خسارہ کم کرنے میں معاونت فراہم کی ہے، تاہم یہ اقدامات اگرچہ نہایت ضروری ہیں، اور اس لحاظ سے مالی سال 2018-19 کے لئے، بڑے مالیاتی خسارے، بلند افراط زر اور کم ترین جی ڈی پی نمو کے لحاظ سے پچھلے مالی سال کی لاگت آئے گی، پاکستان کے جی ڈی پی کی شرح نمو 3.29 فیصد رہ گئی ہے اور گزشتہ مالی سال کی وسطاً 3.9 فیصد کے مقابلے میں موجودہ مالی سال میں موبنگائی میں اور وسطاً 7.3 فیصد تک اضافہ ہوا ہے۔

زراعت، میٹیریل پراجیکٹ (صنعت) اور خدمات کے شعبوں میں بالترتیب 0.85 فیصد، 1.40 فیصد اور 4.71 فیصد کی شرح نمو کے ساتھ معاشی طور پر بہتر کارکردگی کا اظہار کیا گیا۔ گزشتہ مالی سال کے دوران 6.33 فیصد اضافے کے برخلاف لارج اسکیل میٹیریل پراجیکٹ (LSM) کی شرح نمو گھٹ کر 2.93 فیصد ہو گئی۔ لارج اسکیل میٹیریل پراجیکٹ (LSM) میں کمی کی وجہ سے پبلک سیکٹر ڈولپمنٹ پروگرام (PSDP) پر کم اخراجات، نجی شعبے کی تجدید تعمیراتی سرگرمیاں اور ایک دوسرے کے مابین پائیدار ساز و سامان پر صارفین کے کم اخراجات ہیں۔ افراط زر میں اضافے کے ساتھ ساتھ طویل عرصے سے پاکستانی روپے کی گرتی ہوئی قدر نے ملک کی معاشی حالت کو بگاڑنے میں عمل آگیز کا کام کیا ہے۔ براہ راست غیر ملکی سرمایہ کاری (FDI) بھی اس سے کافی متاثر رہی اور مالی سال 2018-19 میں گزشتہ سال 3.47 بلین امریکی ڈالر کے مقابلے میں 1.67 بلین امریکی ڈالر یعنی 52 فیصد تک کی حیرت انگیز کمی دیکھنے میں آئی۔ تاہم FDI میں کمی کے دوران، دو طرفہ ذرائع سے بیرونی سرمایہ کاری کافی مددگار ثابت ہوئی۔ دریں اثناء، پاکستان نے کاروباری انڈیکس میں اپنی پوزیشن کو بہتر بنایا اور وہ گزشتہ سال کی 147 ویں پوزیشن کے مقابلے میں 136 ویں پوزیشن پر آ گیا ہے۔ یہ یقینی طور پر غیر ملکی سرمایہ کاروں کے لئے رغبت کا باعث ہوگا اور مستقبل قریب میں FDI کو فروغ دے گا۔ بہر حال، کرنٹ اکاؤنٹ خسارہ (CAD) کا سکلرنا ملک کی موجودہ معاشی صورتحال میں سلور لائن ثابت ہوا ہے۔ مالی سال 2018-19 میں سی ای اے ڈی مالی سال 2017-18 میں 19.89 بلین امریکی ڈالر کی نسبت 32.11 فیصد گھٹ کر 13.51 بلین امریکی ڈالر رہا۔ جو کہ خاص طور پر صحت مند ترسیلات زر کی آمد سے منسوب کیا گیا ہے جس میں 9.68 فیصد کی نمو اور زیریں درآمدی بلوں میں 7.43 فیصد کی کمی۔ برآمدات میں 2.20 فیصد معمولی اضافہ نظر آیا۔ اگرچہ بیرونی توازن میں بہتری آئی ہے لیکن مالی سال 2018-19 میں خالص زر مبادلہ کے ذخائر 25.45 فیصد کم ہو کر 17.28 امریکی ڈالر ہو گئے جو گزشتہ سال کی اسی مدت کے دوران 9.77 امریکی ڈالر تھے۔ اصلاحی اقدامات کو عملی جامہ نہیں پہنایا جا سکا کیونکہ برآمدات توقع سے کم شرح سے بڑھ رہی ہیں۔ تاہم درآمدات میں کمی نے مقامی صنعت میں مسابقت کی راہ ہموار کر دی ہے۔

یکسٹنڈ انڈسٹری:

2018-19 میں، پاکستان کی سب سے بڑی درآمدی صنعت ٹیکسٹائل کی صنعت تھی جس میں ہوزری اور ریڈی میٹس گارمنٹس نے مجموعی تجارت میں 544 بلین پاکستانی روپے یا 3.47 بلین امریکی ڈالر کا حصہ ڈالا تھا۔ اگرچہ ٹیکسٹائل کی صنعت ملک کی برآمدات میں سب سے زیادہ کی شراکت دار تھی، اس صنعت نے خود کوئی متاثر کن ترقی نہیں کر سکی۔ درحقیقت، مالی سال 2018-19 میں ٹیکسٹائل انڈسٹری میں 0.2 فیصد کی کمی واقع

ہوئی ہے جبکہ اس سے گزشتہ سال 0.5 فیصد اضافہ ہوا تھا۔ سوت اور کاشن کے پکڑے کی ناقص کارکردگی کے باعث اس ترقی کو نمایاں حیثیت حاصل نہ رہی۔ کپاس کی پیداوار میں 17.5 فیصد کمی واقع ہوئی ہے جبکہ کاشن کے زیر کاشت رقبے میں فصل کی کارکردگی کی عکاسی کرتے ہوئے 12.1 فیصد کمی واقع ہوئی ہے جس پر ٹیکسٹائل انڈسٹری بہت زیادہ بھروسہ کر رہی ہے۔ مالی سال 2018-19 میں ٹیکسٹائل کی برآمد میں 1.4 فیصد اضافے سے 13.56 بلین امریکی ڈالر کا اضافہ ہوا ہے جس کے ساتھ ہی نٹ ویز اور ہیڈ ویز اور ریڈی میڈ گارمنٹس کی ایکسپورٹ میں بالترتیب 4.67 فیصد اور 3.63 فیصد اضافہ ہوا ہے۔ چینی سرمایہ کاروں نے دنیا کے چوتھے بڑے کپاس پروڈیوسر کی طور پر پاکستان کی مسلمہ حیثیت کو تسلیم کرتے ہوئے پنجاب کے ٹیکسٹائل سیکٹر میں کاروبار کو فروغ دینے میں گہری دلچسپی ظاہر کی اور اس کے ساتھ ہی حکومت پنجاب کے ساتھ ایک فریم ورک معاہدے پر دستخط کئے ہیں جو کہ ملک کے ٹیکسٹائل کے منظر نامے کو یکسر تبدیل کر سکتا ہے۔

برآمدات میں کمپنی کا مارکیٹ شیئر:

یہ کمپنی ملک کی سب سے بڑی جامع ٹیکسٹائل ملوں میں شامل ہے اور ویلیو ایڈڈ ٹیکسٹائل مصنوعات کی نمایاں ایکسپورٹر ہے۔ کمپنی نے ملک کی بیرونی ایکسپورٹ میں تقریباً 10 فیصد کا حصہ ڈالا ہے۔

کارکردگی کا مجموعی جائزہ:

ہماری جانب سے دیکھے جانے والے کارکردگی کے اہم عوامل (KPI's) مندرجہ ذیل ہیں:

صراحت	پونیس	2019	2018
ایکسپورٹ سیکلز	روپے ملین میں	32,216	28,717
لوکل سیکلز	روپے ملین میں	25,026	16,620
مجموعی نفع	روپے ملین میں	11,982	9,305
نفع قبل از محصول (PBT)	روپے ملین میں	4,008	2,328
نفع بعد از محصول (PAT)	روپے ملین میں	3,609	2,075
EBITDA	روپے ملین میں	7,157	4,969
آمدنی فی شخص (EPS)	روپے	10.12	5.82
Debt to Equity	تناسب	0.58	0.55
Current Ratio	تناسب	1.16	1.14
بریک آپ ویلیو فی شخص	روپے	43.01	35.40

مطلوبہ حجم کے ایکسپورٹ آرڈرز کے ساتھ ساتھ مقامی اور ریٹیل سیکٹر میں وسیع طلب کے باعث آپ کی کمپنی بہت بہتر ثابت ہوئی، جس نے عملیاتی صلاحیتوں اور مقررہ پیداواری اخراجات (fixed production overheads) کے over the heads کے انحصار سے کم آمدیاتی عملے میں معاونت فراہم کی۔ مالی سال 2018-19 کے دوران، انتظامیہ منافع بخش راستوں پر، متعدد اقدامات کے ذریعے پیداواری سرگرمیوں میں کارکردگی کو بڑھانے اور معقول لاگت پر توجہ کو مرکوز رکھا۔ ان کاوشوں کے ساتھ ساتھ گزشتہ چند سالوں میں BMR میں سرمایہ کاری بھرپور فائدہ مند ثابت ہوئی، جس کی وجہ سے گزشتہ سال کے مقابلے میں سیکلز میں 26 فیصد اور مجموعی منافع میں 2.67 بلین پاکستانی روپے کی خطیر رقم کا اضافہ ہوا جو کہ گزشتہ سال کی مجموعی رقم کے مقابلے میں 28 فیصد اضافہ ہے۔ اس کے مطابق، منافع قبل از ٹیکس 72 فیصد تک نمایاں اضافے کے بعد 2,328 ملین روپے سے بڑھ کر 4,003 روپے ہو گیا، جبکہ منافع بعد از ٹیکس 2,075 ملین روپے سے بڑھ کر 3,646 روپے ہو گیا۔ جس کے نتیجے میں آمدنی فی شخص (EPS) میں 5.82 سے 10.12 تک بہتری ہو گئی۔

انتظامیہ نے تاریخ کی سب سے کم ترین اور سہ ماہی شرح سود سے استفادہ حاصل کرنے کی پالیسی کو جاری رکھا جو کہ قرض کی مدت کے دوران بند ہو جائے گی۔ لہذا سال کے دوران BMR سرمایہ کاری کے فنڈ کے لئے اور متعدد پیداواری جگہوں پر جدید ترین ٹیکنالوجی کے حصول کے لئے طویل مدتی کل فنڈنگ میں 28 فیصد اضافہ ہوا۔ 30 جون 2019 کو ختم ہونے والے سال کے دوران debt to equity اور فنڈنگ لیوریج تناسب بالترتیب (2018: 0.55) اور (2018: 1.85) 1.89 رہے۔ اس سرمایہ کاری سے کمپنی کو اضافی مارجن ملا ہے، زبردست سال اور آئندہ مالی سال دونوں کے دوران آنے والی سرمایہ کاریوں میں اس کے موافق نتائج مرتب ہوں گے۔ مابعد روپے ڈالر Parity اور خام مال کی قیمتوں پر غور کرتے ہوئے، انتظامیہ نے خام مال کی انویٹریز میں کافی مقدار میں سرمایہ کاری کی ہے، جس کی وجہ سے ورکنگ کپٹل میں اضافہ ہوا ہے۔ 30 جون 2019 کو ختم ہونے والے مالی سال میں ورکنگ کپٹل 3,192 ملین روپے کے مقابلے میں، 4,818 ملین روپے تھا۔ جبکہ ورکنگ کپٹل میں اضافے کے باوجود موجودہ تناسب میں (2018: 1.16) 1.14 تک بہتری نظر آئی۔ کمپنی نے دونوں طرح سے، سال کے دوران نظر ثانی کے تحت اور اگلے مالی سال کی پہلی سرمایہ میں بھی سازگار نتائج کے حصول کے لئے اضافی حد تک سرمایہ کاری حاصل کی ہے۔

آئندہ کا ماحصل:

کمپنی کے بورڈ آف ڈائریکٹرز نے مورخہ یکم اکتوبر 2019 کو منعقدہ اجلاس میں مندرجہ ذیل تجاویز پیش کیں:

(الف) منافع مقسمہ:

30 جون 2019 کو ختم ہونے والے سال کے لئے بحساب -2.50 روپے فی شخص جو کہ 25 فیصد ہے نقد منافع مقسمہ ادا کیا جائے گا۔

(ب) پونیس شیئرز:

پونیس شیئر کا ایک اجراء جو کہ 20 فیصد ہے یعنی ایک حصص برائے فی پانچ حصص کی شرح ہے؛

اصل سرمایہ کاری کے خدو خال:

سال کے دوران پیڈ آپ کپٹل میں کوئی تبدیلی رونما نہیں ہوئی، جبکہ مجموعی شیئر ہولڈرز کی ایکویٹی 2,712 ملین روپے سے بڑھ کر 15,333 ملین روپے ہو گئی جس کے نتیجے میں کاروبار میں منافع برقرار رہا۔

فنزڈ کا انتظام و انصرام:

کمپنی ورکنگ کپٹل کی ضروریات، بشمول ڈیبٹ سروسنگ اور حصص یافتگان کو منافع کی ادائیگی اور کیش فلو کی پیش گوئی کی موثر اور منظم نگرانی کے ذریعے سے اپنے نقد فراہم کنندگان کو احسن طور پر ادا کرنے میں کامیاب رہی۔ کمپنی مناسب نقد رقم کو برابر رکھ کر اور مناسب کریڈٹ کی سہولیات کی دستیابی کے ذریعے زراعت (لیکویڈیٹی) رسک کا بندوبست کرتی ہے۔ سال کے اختتام پر، کمپنی کے پاس 3,233 ملین روپے (Rs. 6,873 million) (2018) غیر استعمال شدہ کریڈٹ لائنز کی مدد میں اور (Rs. 470 million) 492 ملین (2018) بینک میں بقایا جات کی صورت میں موجود تھے تاکہ کسی بھی قسم کے عارضی عدم تناسب کو پورا کیا جاسکے۔

کاروباری شعبہ جات:

ایسٹنگ:

ایسٹنگ کے کاروباری طبقے نے پچھلے سال کے دوران جدید ترین ٹیکنالوجی اور صلاحیتوں کو بڑھانے میں سرمایہ کاری کے فوائد سے استفادہ حاصل کیا ہے، گزشتہ سال کے مقابلے میں سیکلز میں 2,779 ملین روپے (34 فیصد) اضافہ ہوا۔

اسپینگ	2019	2018	تبدیلی
	روپے ملین میں		
سیلز	10,989	8,210	34%
سیلز کی لاگت	(9,251)	(7,008)	(32%)
مجموعی نفع	1,739	1,202	45%
ترسیل اور انتظامی اخراجات	(153)	(148)	(4%)
دیگر آپریٹنگ اخراجات سے قبل اس شعبے کا آپریٹنگ نفع	1,585	1,055	50%

مجموعی اور آپریٹنگ منافع میں بھی قابل قدر بہتری آئی ہے، جیسا کہ اوپر دکھایا گیا ہے۔ مینجمنٹ پر امید ہے کہ اب بھی غیر فعال صلاحیت موجود ہے اور آنے والے سالوں میں یہ حصہ مزید بڑھ جائے گا۔

ویونگ:

SUSTAINABILITY REPORT

While sustainability is about the future of our society, for today's industries and businesses, it is also about commercial success. The mandate to transform businesses to respect environmental limits while fulfilling social wants and needs has become an unparalleled platform for innovation on strategy, design, manufacturing and brand, offering massive opportunities to compete and to adapt to a rapidly evolving world.

This is a big challenge, and not just for business and economics. It is a call for massive social, political, technological, cultural and behavioral transition. To achieve this transformation, we need the capacity of business to innovate and to execute, meeting market needs swiftly, effectively and on a global scale. This will mean managing for the long-term as well as the short-term, developing strategies that balance competition and cooperation, designing and delivering products and services that meet social and environmental needs, shifting to more resilient business models based on closed-loop, open-source, peer-to-peer or service-based principles (to name a few), incorporating the true costs of environmental and social resources, and seeing transparency and collaboration as sources of competitive advantage.

For these businesses, sustainability means not only eco-efficiency, but also eco-effectiveness. Sustainability is absolutely about marketing and branding – when that means identifying market needs based on long-term prosperity and creating tribes of sustainable consumers. Sustainability needs to be about ‘greening’ – because businesses and communities depend on healthy, productive ecosystems. Sustainability can also encompass corporate philanthropy – when that philanthropy is strategic. Above all, we believe that for tomorrow's enduring businesses, sustainability will be about making money by meeting real and fundamental human needs.

As a socially responsible entity, Gul Ahmed Textiles Mills Limited (the Company) recognizes its duty towards safety and protection of the environment. Safeguarding the environment for human race is of utmost importance to the Company. Sustainability Policy of the Company provides the guidelines for maintaining coherence with the objective of conducting nature friendly practices. This report updates the stakeholders about the steps taken by the Company to ensure compliance.

Better Cotton Initiative (BCI)

BCI is a programme which aims to improve the

environment along with the livelihood of the farmers. This is achieved by observing the following guidelines:

- Reduce the environmental impact of cotton production
- Improve livelihood and economic development in cotton producing areas
- Reinforce commitment of keeping the flow of better cotton throughout the supply chain
- Endure the credibility and sustainability of BCI

BCI is a project advancing the development of Organic cotton which is handled without the utilization of pesticides, bug sprays, defoliants, artificial fertilizers, or dioxin-delivering bleach. The purpose is to develop, gather and process crops without harming the environment.

The Company is member of BCI and strictly promotes BCI's objective by purchasing cotton which is produced according to its guidelines. The Company purchased BCI cotton equaling 24,450 tonnes in FY 2019 and 15,016 tonnes in FY 2018.

Contribution to National Exchequer

The Company is contributing to the national growth by sharing its revenues in the form of taxes, rates and duties and exports also contribute towards improving foreign reserves. Contribution by the Company was a total of Rs. 1,207.53 million in FY 2019 (FY 2018: 2,279 million) in various federal, provincial and local taxes, rates and duties.

Education

Being a strong advocate of imparting quality education in today's era, the Company is a regular contributor to the “Fellowship Fund for Pakistan” and often contributing to good institutions for the purpose. This serves towards the task of showcasing the problems of public interest in media and foster the think tanks for the country.

The Company also strives to promote the youth by way of aids and sponsorship in various fields.

Women Empowerment

The company believes women make the most of every opportunity that comes their way, therefore the management has proudly stepped up to bring a change in the society by introducing numerous Women Empowerment programs. These include aiding a Boxing Club for training in a neglected area of Karachi, Saylani Worker Training Program which is a joint collaboration with Saylani to facilitate women

to learn, grow and enhance their skills, “KheloKriket” for women cricketers, and commemorating Women's Day in Gul Ahmed Textile Mills.

Special Persons

The company also gives importance on providing an opportunity with dignity to people with special needs who are trained to serve the company as valuable human capital. We have included a yearly quota for special person as a part of our diverse human resource. In joint collaboration with Deaf Schools, PWDs and SWADs, our special person programs connect competent and qualified disable students with our organization.

Conservation of Resources

Pakistan is facing severe energy crisis and efforts to increase power generation are yet to fully materialize. This is besides the everyday increasing drinking water shortage faced by the citizens. This is resulting in load-shedding and power shutdowns in all sectors whether Industrial or Residential as well as weekly scheduling of drinking water supply. Considering the importance of energy and water and to cater energy and water needs, the Company has been heavily investing in power generation which includes installation of turbines, fuel efficient generators and addition of energy efficient machines to our various manufacturing units, as well as using and converting to processes and machineries that require less water consumption.

Every decision of machine acquisition involves due consideration to the energy savings and conservation. Beside this, the Company has been investing in power generation to reduce burden on the already deficient resources of the country. Other such measures include:

- Installation of hot water chiller at our powerhouse which uses hot water from generating sets and thus has replaced high electric consuming electrical chiller.
- Installation of duplex waste heat recovery boiler enabling our engines to utilize their flue gases to generate steam.

Further, erecting Water Recycling Plant with a capacity to recycle approximately 600,000 gallons of water per day with an investment of around 400 million PKR has been completed. This will be in addition to the effluent treatment plant already operational since 2006 which meets all the NEQS

standards. We intend to double the capacity of recycling after two years.

Combined Cycle Gas Turbine

Combined Cycle Gas Turbine are running in the Company which helps in utilizing the energy of hot flue gases into waste heat recovery boiler, to produce high pressure steam generation thereby reducing our carbon footprint which can also produce the electricity. Steam turbine operates to generate 2.25 MW of electricity whereas combined cycle is recycling 30,000 tons/Nautical Mile of carbon dioxide.

Caustic Recovery Plant

The Company has installed two Caustic Recovery Plants (CRP) at its processing facility to recover caustic from weak lye generated from the newly installed mercerizing machines. CRP helps in recovering caustic from waste water and also helps in reducing chemicals cost required to control the pH of waste water.

Pollution Prevention and Control

The Company recognizes the significance of pollution prevention programs in providing economic and environmental benefits and is actively reducing water usage and using efficient processing chemical for cleaner production processes and pollution prevention measures. To contribute in this area, our activities are:

- Using good quality surfactant and avoid using less-degradable surfactants (in washing and scouring operations).
- Using transfer printing for synthetics and water-based printing pastes to reduce and control water and chemical (dyes) usage.
- Using Dyeing Pad Steam which helps to reduce water and energy consumption.
- Using jet dyers instead of winch dyers to reduce water consumption.
- Avoiding use of benzidine-based azo dyes and dyes containing cadmium and other heavy metals.
- Avoid using chlorine based dyes.
- Recovering and reusing process chemicals and dye solution.
- Using peroxide-based bleaches instead of sulphur and chlorine based in its processing process.

COMMENTS ON FINANCIAL ANALYSIS

Equity And Liabilities

• Shareholders' Equity

Total equity of the Company has increased by Rs. 2.71 billion as compared to the prior year i.e. 21.49% growth. As at June 30, 2019, total equity was Rs 15.33 billion which indicates a growth of around 30.23% over the last six years. There is more increase in equity in current year due to higher profit of 1.53 billion. The current year's profit after tax is higher by Rs. 1.53 billion enabling the Company to consider higher dividend payout. As at June 30, 2019 the paid-up capital remaining the same at Rs. 3.56 billion, the reserves have gone by Rs. 2.71 billion to Rs. 11.77 billion. The total equity is now more than 2 folds over the last six years.

• Non-current Liabilities

Company obtained further long-term financing of Rs. 1.76 billion under the State Bank of Pakistan's concessionary financing for textile exporters, due to the management's strategic decision to take maximum advantage of historically low markup rates which would remain locked over the term of loan as well as overvalued PKR. However, the total long-term borrowings have decreased by 13.57% i.e. Rs. 1.36 billion, due to repayments during the year and start of repayment of more loans from ensuing year. Deferred liabilities which include deferred taxation and staff retirement benefits have increased by around 82% as compared to the last year. However, there was no material change in the same during prior five years.

• Current Liabilities

Current liabilities have gone up by Rs. 6.46 billion i.e., 27.32 % as compared to 2018 and are at highest level during the last six years. The increase is mainly attributable to short term borrowings, following by increase in trade creditors and current maturity of long term borrowings. The increase in commercial borrowings has been caused due to opportunity buying of inventory as well as enhanced operations level in spinning. However, the same has been reflected in increased volume

of inventory and trade debtors and total current assets have also increased. There has been an increase of about Rs. 15.07 billion in current liabilities over the last six years due to reasons mentioned above.

Assets

• Non-current Assets

Non-current assets of the Company including property, plant and equipment, intangible assets and long-term investments reflected a marginal increase as compared to the prior year. Additions during the year were of Rs. 5.28 billion as against Rs. 3.33 billion during 2018, however, there were lessor disposals but higher depreciation charge during 2019 as compared to 2018. As mentioned above, the investment in property, plant and equipment was due to the management's decision to take advantage of currently prevailing interest rates, PKR valuation and availability of most efficient version of machineries. Over the last six years, non-current assets have grown by more than 2.3 times which indicates steady growth in the operational capability of the Company and results are evidence of the same.

• Current Assets

Current assets include trade debts, stock in trade, short term prepayments, cash and bank balances and loans and advances. These have increased by around 8.08 billion mainly due to increase in levels of inventory and trade debtors for the reason mentioned above. Refunds from Govt. has decreased by Rs. 0.34 billion. The current assets as on June 30th are highest in last six years and management has target to decrease the same in the ensuing year. The reduction in current assets would also result in reduction in the current level of current liabilities.

Profit and Loss

• Revenue and Cost of Sales

Export sales have gone down by Rs. 4.07 billion including due to change in PKR/Dollar parity and for management decision of not entertaining

customers who are not contributing in bottom line. The local sales have increased by Rs. 8.66 billion as compared to last year due to increase in local yarn sales as well as increase in retail sales volume. Over the last six years, sales have increased by around 74% i.e. by Rs. 24.3 billion. Besides exports, the Company is also focusing on the local market through its chain of retail stores and sale of yarn in local market based on opportunity and better prices. Having more strong foot prints now due to its brand image, start of western wears & kids and focus on customer ease and satisfaction by having robust quality management systems, the Company is expanding in target markets across the country.

• Gross Profit

Though increase in sales in the current year is by around 25.56%, gross profit margin has maintained at 21%. Gross profit has not improved in terms of % mainly due to raw material procurements at right time, more investment in inventories which given rise to financial cost to avoid risk of change of PKR parity to US\$, higher depreciation on new machinery etc. The gross profit rate was maintained inspite of immense competition and no reciprocal increase in prices by customers. The increase may have been higher, but for the challenges mentioned. Cost of sales as a percentage of sales was 79% during the year as well as in the last year which had been lower if the other factors were also favorable.

• Profit Before Tax

Profit before tax of the company which was grown in current year was higher by Rs. 1.68 billion i.e., increased to 7.0% of sales from 5.1% of sales in last year. The net profit before tax is highest in last six years as well as the profit after tax. The improvement is a result of increase in Gross Profit margin as well as effective control in selling & distribution, administration and financial costs. Though these costs are higher or substantially the same as in prior year but are lower when analyzed as percentage of sales. Increase in selling and distribution cost is attributable to increase in sales whereas increase in finance cost has been

caused by due to higher level of borrowings. The attempt to control these costs had somewhat absorbed the inflationary impact on these costs.

Cash Flows

- Cash and cash equivalents as at June 30, 2019 were Rs. (18.47) billion as compared to Rs. (14.6) billion as at June 30, 2018. During the year under review, more amount was invested in inventory, debtors and blocked in refunds from government. CAPEX for which State Bank of Pakistan's concessionary financing was not available were also financed from internal generation which further enhanced the working capital requirement. Amount invested in inventories is due to strategic opportunity purchases which has benefited the company in current year and will also benefit in the ensuing year. Additional investment in debtors was due to enhanced yarn sales in local market as well as not discounting the exports bills in anticipation PKR devaluation.

Ratio Analysis

• Profitability Ratios

CAPEX investment in prior years, in time investment in inventories, enhanced operational efficiencies had helped maintaining the Gross Profit ratio at 21.0%. The increase in Gross Profit volume was inspite of increase in raw material prices, no compensatory increase in selling prices and general inflation. The increase in gross profit and effective control over selling & distribution and administrative costs, the net profit to sales ratio also increased to 7.0% from 5.1% compared to last year. Administrative costs were very effectively controlled and there is marginal change from last year inspite of increase in operational level and inflation. Whereas increase in selling & distribution cost is due to enhanced sales volume and change in PKR/US\$ parity. Return on capital employed increased impressively from 17.45% to 24.94% due to increase in earnings. The increased profitability also helped in improving return on equity from 17.63% to 25.82%.

DUPONT ANALYSIS

Liquidity Ratios

Efficient fund management has helped in steady growth in the current ratio year by year as well as acid test ratio. On the contrary, cash flow from operations has reflected an increase in working capital requirement mainly due to further money tied up in trade debtors and inventories for the reasons cited in above paragraphs.

Turnover Ratios

Both Inventory turnover ratio debtors' turnover have decreased due to opportunity buying and carried over stock and higher yarn sales volume in local market with higher credit period and strategic non- discounting of export bills. The inventory turnover is more or less at par the last six years whereas debtors' turnover days had increased. Creditors' turnover ratio has increased as the Company had negotiated better credit terms from suppliers rather than relying on short term borrowings.

Fixed asset turnover ratio has improved in the current year, as the net value of property, plants and equipment were higher at the end of the year due to additional CAPEX.

Investment/Market Ratios

Earnings per share had increased to Rs. 10.12 from Rs. 5.82 in the current year due to higher profitability. Price earnings ratio decreased to 4.65 times from 7.38 times which is a combined result of higher earnings per share and improvement in market price of the shares. Market price was Rs. 47.12 at the end of FY 2019 as compared to Rs. 42.93 at the end of last financial year.

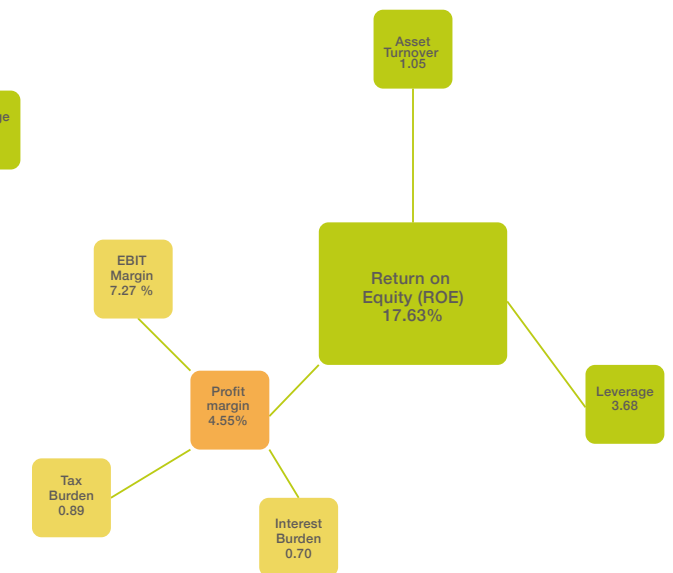

Capital Structure Ratios

Fresh long-term loans obtained during the year to undertake BMR as well as new projects with consideration to take advantage of the low markup rates have enhanced the total long-term borrowing levels by Rs. 1.76 billion to Rs. 10.04 billion despite the repayments during the year. However, the high volume of borrowings has enhanced the debt portion and debt to equity ratio was 58:42 as compared to 55:45 at the end of last year. Resultantly, the financial leverage ratio had also decreased to 1.89 times as compared to 1.85 times last year despite considerable increase in equity. Though the level of debt was high but increased profitability helped in increase in interest coverage ratio had increased to 3.72 from 3.36 last year.

First Quarter ended September 30, 2018

Though sales compared to corresponding quarter was higher by Rs. 2.696 billion i.e. 29% however, the gross profit improved by 51% due to operational efficiencies, cost containment and Rupee/Dollar Parity, lower fixed cost etc. Profit after tax has increased by Rs. 0.525 billion i.e. 417% due to improvement in gross margin and effective control of operating costs which is historical. The new machinery replacing the old ones in spinning segment was also a contributing factor both in gross margin and operating profit. Such a high profit after tax has been witnessed in first quarter first time in last decade.

Second Quarter ended December 31, 2018

Upward trend was continued in the second quarter as well and sales also grown by 27% as compared to corresponding period of last year. Gross profit also witnessed increase more than the sales growth and was 56% due to continued measure to improve operational efficiencies, cost containment as well as PKR/US\$ parity.

Though overall exports were more or less similar as in the corresponding period last year, but the new machinery in spinning as well as in processing/printing helped to add to topline and being efficient machineries in terms of running cost also improved the bottom line.

Third Quarter ended March 31, 2019

Sales were continued to be higher by same 19% percent even in the third quarter and were Rs.

13.78 billion as compared to Rs. 11.53 billion in the corresponding period of last year. Though sales were higher as compared to the corresponding quarter of last year, the same was marginally lower than the second quarter of the current year. The gross profit was also lower by 3.23% compared to the second quarter but were higher by 24% if compared with same period of last years, because of continued and additional stringent cost control measures implemented by the management. The net profit after tax was marginally higher by Rs. 0.011 billion as compared to corresponding year.

Fourth Quarter ended June 30, 2019

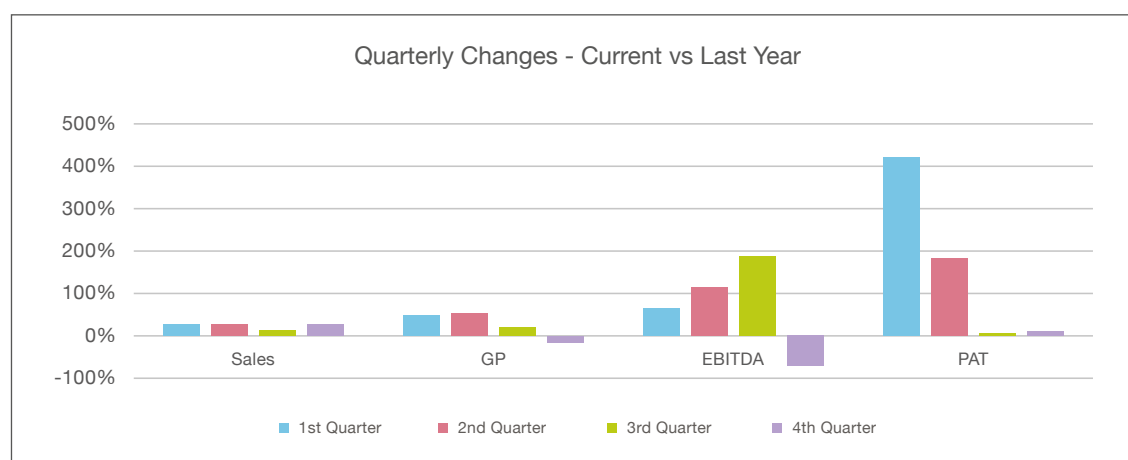

Sales were higher by Rs. 3.59 billion i.e., by around 27% as compared with fourth quarter of last year and were also higher as compared to all previous three quarters of the current year. However, the gross profit was not maintained at same level in previous three quarters due to higher input costs. Gross profit as compared to the fourth quarter of last year was also 14% lower for reasons cited above.

Profit after tax in the fourth quarter was higher compared to first and third quarter whereas lower compared to second quarter. Profit after tax was also higher when compared with corresponding quarter of last year. EBITDA was higher in third quarter as compared with last years' corresponding quarters.

Sales were higher by 26% YoY and were reciprocated by increase in gross profit by 25% and profit after tax

by 74% for the reasons cited above. Sales, Gross Profit and Profit After Tax were higher in the quarters when compared with corresponding quarters of last year. EBITDA was lower in fourth quarter when compared with last year's corresponding quarter and on YoY it was higher by 44%.

SHARE PRICE SENSITIVITY ANALYSIS

The Company is exposed to several external factors, beyond management's control which can affect performance and profitability and therefore affects the share prices. The share price in comparison to PSX 100 Index at each month end during the year under review were as under:

Month	Company's Share Price	PSX 100 Index
Jul-18	42.42	42,712
Aug-18	48.66	41,742
Sept-18	48.89	40,998
Oct-18	50.78	41,649
Nov-18	51.56	40,496
Dec-18	46.17	37,066
Jan-19	53.24	40,799
Feb-19	54.92	39,054
Mar-19	56.97	38,649
Apr-19	54.21	36,784
May-19	48.12	35,974
Jun-19	47.12	33,901

Sensitivity analysis is performed on regular basis to minimize the risk of these external factors. This involves analyzing trends, yearly results and testing the effect of various critical and non-critical variables on the overall profitability of the Company. Following external factors affects share price of the Company:

1. Any shortage/excess of Cotton in the market (local and international), may distort the profitability as at times the Company has to resort to buying on higher prices to meet demand.
2. Exchange Rate fluctuations affect the export sales of the Company in PKR and where the same does not float free it makes the Company uncompetitive with the regional competitors.
3. Interest Rate fluctuations affect the finance cost of the Company and also affect the decisions of the management to expand its operations/modernize its production facilities due to borrowing cost. The anticipated increase would affect the profitability and hence may be the prices of shares.

4. Pronouncements by Government of Pakistan relating to rebates, taxes, duties, refinance rates, etc. are all price sensitive. These affect the performance of the Company and major decisions of the management.
5. Pronouncements by foreign governments such as award of 'GSP Plus Status' to Pakistan from European Union which may boost the export revenue of the textile industry. Other pronouncements from competing countries like subsidies to the industry in energy prices, lower tax or duties rates will affect the competitiveness of the industry in Pakistan if such facilities are not provided to the industry in Pakistan by the Government.
6. Economic growth in the countries where the products are exported.

Weaknesses

- Export dependent primarily on few major customers
- Highly labor intensive industry
- Labor productivity is very low
- Higher Utility requirement
- Current High Debt Leverage
- Multiple Locations

OPPORTUNITIES

- Growing retail market including expansion of ladies and gents apparel
- Adding more products and range in stores specially men and stitched garments
- Having existence in thickly populated middle class areas and in rural areas with selected range of products
- Growth in exports by adding more range in Apparel
- Less explored USA, Canada, Australia and Middle Eastern markets
- Expanding online sales
- Kid's apparel market has potential to be explored

THREATS

- Internal and external security situation
- Fear of some extreme action by dominating nations
- Deteriorating economic conditions in the Country compounded by increasing debt burden, widening current account deficit and circular debt
- Irrational taxation policies
- Parallel small competitors not covered in tax net
- Continuous energy shortage affecting production and its cost
- Worsening of economic conditions in Europe
- Large number of competitors including informal setups, especially in the ladies fabric business and retail chains
- Key employees lured by competitors
- Shortage of raw material (cotton) due to natural disasters like heavy rains, floods, etc. as well as prior year bad experience of prices due to bad crop
- Worldwide surplus production capacity resulting in heavy price wars
- Exchange Rate Parity

ENVIRONMENTAL OVERVIEW (PESTEL)

Political Factors

- Political situation in the country could not be stabilized and is still impulsive as anti-government movements are very active.
- Law and order conditions though improved, however, there are concerns about the situation in two of the provinces and on the borders with India and Afghanistan.
- Practices like red tapism, corruption and tardy systems and procedures are big hurdles in efficient operations of the businesses

Economic Factors

- Stable discount rates have favorable impact on the financial cost.
- No volatility in oil prices
- Unfavorable PKR/USD parity has resulted in loss of export competitiveness
- Existence of facilities to exporters like Export Refinance Facility and Long Term Financing Facilities
- Reduction in policy rate consequently leads to eased up public borrowing.
- Business shrinkages/shutdowns due to energy crisis especially in spinning.
- Delayed payments of tax refunds from the government
- 25th largest country in the world in terms of purchasing power parity.

Social Factors

- Highly fashion oriented customers require introduction of large variety of new and trendy products and we meet this challenge with team of experts who not only understand fashion but also trends, and monitor them effectively.
- Rapid changes in fashion trends and consumer preferences make the market highly competitive.
- The customers are very particular towards their safety and avoiding health hazard while using products and therefore require proper compliance with regards to consumer protection measures.
- Growth in population is out spacing the annual growth, resulting in unfavorable impact on the economy

- Customer loyalty is getting stronger day by day, hence, businesses have to make more efforts to maintain it.

Technological Factors

- It is one of our priorities to stay up to date on technological advancements in today's era. We are continuously monitoring technological front in production and are adopting modern practices. Currently, we are substantially using the latest, state of the art production facilities.
- Gul Ahmed is enduring itself towards the integrated systems for management and storage of data and recently acquired Cloud for this purpose.
- Social media provides interactive engagement with consumers along with real time results in order to stay connected with the customers and their needs.
- Online marketing is another important medium to interact with customers globally.
- Gul Ahmed is making the best of efforts to benefit from the increasing trends of online shopping, locally and internationally.

Environmental Factors

- Climatic factors such as heavy rains, floods and other changes make it necessary for businesses to plan ahead and be prepared for contingencies, especially considering the poor infrastructure and its non-maintenance.
- Environmental control requirements need extra investment in the manufacturing facilities, the cost of which results in compromise on the bottom line.

Legal Factors

- Increasing indirect taxes, cess, duties and charges specially Gas Infrastructure Development Cess and non-eligibility of sales tax paid on Packing Material for adjustment as input tax.
- Trade and textile policies, as accounted by the Government, are not fully implemented or promised benefit/compensation is not made available on timely basis

RISK MANAGEMENT

The rapidly changing and increasingly complex global economy has created an expanding array of risks to be managed if the viability and success of the Company is to be ensured. Organizations face the task of managing their risk exposures while remaining profitable and competitive and in this context managing risks is not a new challenge. The challenges and demands of contemporary markets, customers, regulatory authorities,

employees and shareholders present organizations with an interesting paradox: It is the intelligent assumption of risk, not its avoidance that creates value in a Company. Risk management is no longer discretionary but essential for managing in today's increasingly complex and fast moving world. It takes commitment from the top, a sound methodology and discipline in its application to obtain the maximum benefit. We at Gul Ahmed:

- Identify
- Avoid
- Retain
- Handle
- Reduce
- Transfer

the risks and have identified following risks and also how to mitigate those:

کمپنیز ایکٹ مجریہ 2017 کی دفعہ (3) 134 کے تحت خصوصی امور سے متعلق بیانیہ

یہ بیانیہ 28 اکتوبر 2019 کو منعقدہ گل احمد ٹیکسٹائل ملز لمیٹڈ (کمپنی) کے سزسٹھویں (67) سالانہ اجلاس عام ("AGM") میں خصوصی قرارداد سے متعلق خصوصی کاروائی کے حوالے سے Material حقائق کا تعین کرتا ہے۔

کمپنی اپنی پالیسیوں اور قابل اطلاق قوانین اور قواعد و ضوابط کے مطابق اپنی متعلقہ کمپنیوں اور متعلقہ فریقین کے ساتھ معاملت کرتی ہے۔ بعض متعلقہ پارٹیوں کے ساتھ لین دین کے لئے کمپنیز ایکٹ 2017 کی سشن 207 کے تحت شیر ہولڈرز کی منظوری درکار ہوتی ہے، جیسا کہ گل احمد ٹیکسٹائل ملز لمیٹڈ کے ڈائریکٹروں کی اکثریت (شیر ہولڈر ہونے یا متعلقہ اداروں میں ڈائریکٹر ہونے کی وجہ سے) ان ٹرانزیکشنز میں دلچسپی رکھتے ہیں۔

(الف)	فعال ٹیکس ادا کنندگان کی فہرست (ATL) میں شامل افراد کے لئے آئٹمز کی کٹوتی کی شرح	15%
(ب)	غیر فعال ٹیکس ادا کنندگان کی فہرست (ATL) میں شامل افراد کے لئے آئٹمز کی کٹوتی کی شرح	30%

ایسے شیر ہولڈرز جو فاکرز ہیں وہ اس بات کی یقین دہانی کر لیں کہ ان کے نام فوئیو / بورڈ آف ریونیو (FBR) کی ویب سائٹ پر موجود حالیہ فعال ٹیکس ادا کنندگان کی فہرست (ATL) میں شامل ہیں، بصورت دیگر انہیں نان فاکر تصور کیا جائے گا اور ان کے نقد منافع منقسمہ پر ٹیکس کی کٹوتی 15 فیصد کے بجائے 30 فیصد کے حساب سے کی جائے گی۔

9۔ FBR کی جانب سے جاری کردہ وضاحت کے مطابق جہاں شیر رجسٹرڈ کا ڈیٹس / ناموں کے ساتھ ہیں۔ اس میں ہر اکاؤنٹ / مشترکہ ہولڈر سے انفرادی طور پر برتاؤ کیا جائے گا، چونکہ یا تو وہ شخص فعال ٹیکس ادا کنندگان کی فہرست (ATL) میں ظاہر کیا گیا ہوگا یا پھر فعال ٹیکس ادا کنندگان کی فہرست (ATL) میں ظاہر نہیں کیا گیا ہوگا اور ان کی شیر ہولڈنگ کے مطابق ٹیکس کی کٹوتی کی جائے گی۔ جو شیر ہولڈرز مشترکہ شیر ہولڈنگ آئیٹمز رکھتے ہیں ان سے درخواست ہے کہ وہ (اگر پہلے فراہم نہ کی گئی ہوں تو) 20 اکتوبر 2019 تک مندرجہ ذیل فارم کے تحت اپنے شیر ہولڈنگ کا تناسب کے بارے میں کمپنی کے شیر رجسٹرار کو مطلع کریں۔

فویو / CDC اکاؤنٹ نمبر	شیر ہولڈر کا نام (پرنسپل اجوائنٹ ہولڈر)	شیرز یا فیصد کی تعداد (تناسب)	کمپیوٹرائزڈ قومی شناختی کارڈ (CNIC) نمبر	دستخط

اگر شیر ہولڈنگ کا تناسب موصول نہیں ہوتا ہے تو ہر شیر ہولڈر کے شیرز کا تناسب مساوی تصور کیا جائے گا اور اسی کے مطابق دو ہولڈنگ ٹیکس کی کٹوتی کی جائے گی۔

10۔ منافع منقسمہ آمدنی پر دو ہولڈنگ ٹیکس سے مستثنیٰ ہونے کے لئے ٹیکس مستثنیٰ سرٹیفکیٹ کی درست نقل کمپنی کے شیر رجسٹرار کو کتابوں کی بندش سے قبل فراہم کرنا ہوگی بصورت دیگر دیگر قابل اطلاق شرح کے مطابق نقد منافع منقسمہ پر ٹیکس کاٹا جائے گا۔

11۔ کارپوریٹ شیر ہولڈرز جو CDC کا ممبر رہتے ہیں انہیں اپنے سی ڈی سی یا ٹیکسٹائل کے ساتھ اپنے منسلک ٹیکس نمبر جو آپ ڈیٹ رکھنا ہوگا جبکہ کارپوریٹ فریکٹل شیر ہولڈرز کمپنی یا فیکو ایسوسی ایٹس (پرائیویٹ) لمیٹڈ کو اپنے این ٹی این سرٹیفکیٹ کی کاپی بھیجیں۔ شیر ہولڈرز اپنے NTN سرٹیفکیٹ بھیجئے ہوئے اپنا کمپنی کا نام اور اپنا فویو نمبر ضرور درج کریں۔

TO THE MEMBERS OF GUL AHMED TEXTILE MILLS LIMITED REVIEW REPORT ON THE STATEMENT OF COMPLIANCE CONTAINED IN LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2017

- Dr. Amjad Waheed- Chairman
 Mr. Mohomed Bashir- Member
 Mr. S.M Nadim Shafiqullah- Member
- b) HR and Remuneration Committee:
- Mr. Ehsan A. Malik- Chairman
 Mr. Mohomed Bashir- Member
 Mr. Zain Bashir- Member
13. The terms of reference of the aforesaid committees have been formed, documented and advised to the committee for compliance.
14. The frequency of meetings of the committee were as per following:
- a) Audit Committee
 - Four quarterly meetings
- b) HR and Remuneration Committee
 - One annual meeting
15. The Board has set up an effective internal audit function. This function has been outsourced

to Grant Thornton Anjum Rahman Chartered Accountants, who are considered suitably qualified and experienced for the purpose and are conversant with the policies and procedures of the Company. The Company has also designated a full time employee as Head of Internal Audit.

16. The statutory auditors of the Company have confirmed that they have been given a satisfactory rating under the quality control review program of Institute of Chartered Accountants of Pakistan (ICAP) and registered with Audit Oversight Board of Pakistan, that they or any of the partners of the firm, their spouses and minor children do not hold shares of the Company and that the firm and all its partners are in compliance with International Federation of Accountants (IFAC) guidelines on code of ethics as adopted by the ICAP.
17. The statutory auditors or the persons associated with them have not been appointed to provide other services except in accordance with the Act, these regulations or any other regulatory requirement and the auditors have confirmed that they have observed IFAC guidelines in this regard.
18. We confirm that all other requirements of the Regulations have been complied with.

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2017 (the Regulations) prepared by the Board of Directors of Gul Ahmed Textile Mills Limited (the Company) for the year ended June 30, 2019 in accordance with the requirements of regulation 40 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related

party transactions and also ensure compliance with the requirements of section 208 of the Companies Act, 2017. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out procedures to assess and determine the Company's process for identification of related parties and that whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2019.

Further we highlight, as stated in paragraph 9 of the annexed statement of compliance, that the Company has applied to Securities and Exchange Commission of Pakistan for obtaining exemption from acquiring certification under any Directors' Training Program for one of the Directors of the Company in compliance with regulation 20(2) of the Regulations.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF GUL AHMED TEXTILE MILLS LIMITED REPORT ON THE AUDIT OF THE UN-CONSOLIDATED FINANCIAL STATEMENTS

Opinion

We have audited the annexed un-consolidated financial statements of Gul Ahmed Textile Mills Limited, ("the Company") which comprise the un-consolidated statement of financial position as at June 30, 2019, and the un-consolidated statement of profit or loss, the un-consolidated statement of comprehensive income, the un-consolidated statement of changes in equity, the un-consolidated statement of cash flows for the year then ended, and notes to the un-consolidated financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the un-consolidated statement of financial position, the un-consolidated statement of profit or loss, the un-consolidated statement of comprehensive income, the un-consolidated statement of changes in equity and the un-consolidated statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30,

Following are the Key audit matters:

S. No.	Key audit matter	How the matter was addressed in our audit
1.	Stock in Trade The Company has significant levels of stock in trade amounting to Rs. 21.370 billion as at the reporting date, being 39.2% of total assets of the Company. A number of estimates and judgments are involved in valuation of stock in trade, in determining the net realizable values of finished goods and intended use of raw materials.	Our audit procedures included the following: <ul style="list-style-type: none"> Attending the year end stock taking on selected locations to gain comfort over the existence and condition of inventories and internal controls designed by the company. Obtaining understanding of internal controls designed by the Company over recording of purchases and valuation & costing of the inventories, and testing their operating effectiveness on sample basis.

2019 and of the profit, total comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan ("the Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the un-consolidated financial statements of the current year. These matters were addressed in the context of our audit of the un-consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

S. No.	Key audit matter	How the matter was addressed in our audit
	The significance of the balance coupled with the estimates and judgments involved in their valuation has resulted in the stock in trade being considered as a key audit matter. (Refer Notes 19, 2.4 (g) and 3.13 to the annexed un-consolidated financial statements)	<ul style="list-style-type: none"> Assessing historical costs recorded in the inventory valuation by performing test of details on purchases. Performing re-calculation of weighted average costs on sample basis. Obtaining valuation sheets of the inventories and tracing / reconciling quantities from working papers of observation of physical stock taking. Evaluating valuation basis used are appropriate and consistently applied that includes analysis of costing of different items on sample basis. Assessing the management's determination of the net realizable values and expected use of raw material that included performing tests on the sales prices fetched by the Company before and after year end. Performing analytical and other relevant audit procedures. Considering the adequacy of the Company's disclosures in respect of inventories
2.	Borrowings The Company has significant amounts of borrowings from Banks and other financial institutions amounting to Rs. 29 billion, being 74% of total liabilities, as at reporting date. Given the significant level of borrowings, finance costs, significant gearing, the disclosure given by the management in financial statements and compliance with various loan covenants, this is considered to be a key audit matter. (Refer Notes 6, 11 and 3.6 to the annexed un-consolidated financial statements)	Our audit procedures included: <ul style="list-style-type: none"> Review of loan agreements and facility letters to ascertain the terms and conditions of repayment, rates of markup used and disclosed by management for finance costs and to ensure that the borrowings have been approved at appropriate level. Verification of disbursement of loans and utilization on sample basis. Review of charge registration documents. Verification of repayments made by the Company during the year on sample basis to confirm that repayments are being made on time and no default has been made. Understating and assessing procedures designed by management to comply with the debt covenants and performing covenant tests on sample basis.

S. No.	Key audit matter	How the matter was addressed in our audit
		<ul style="list-style-type: none"> Obtaining confirmation from Banks and other lenders of the Company to confirm balances, terms & conditions stated in the terms sheets and compliance thereof. Performing analytical procedures, recalculations and other related procedures for verification of finance costs. Ensuring that the outstanding liabilities have been properly classified and related securities and other terms are adequately disclosed in the un-consolidated financial statements.
3.	<p>Contingencies</p> <p>The Company is under litigation cases in respect of various matters including Gas Infrastructure Developments Cess (GIDC), claims from various Government Institutions / Departments, tax matters and other miscellaneous claims in respect of the assets of the Company.</p> <p>Given the nature of contingencies, the assessment of the existence of the present legal or constructive obligation, analysis of the probability of the related payments and analysis of a reliable estimate, requires significant management's judgment to ensure appropriate accounting and disclosures. These judgments can change over time as new facts emerge and the case progresses. Therefore, we have identified this matter as a key audit matter.</p> <p>(Refer Notes 13, 9, 2.4 (b) and 3.4 to the annexed un-consolidated financial statements)</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> Assessing management's processes to identify new possible litigations, obligations and changes in existing obligations through inquiries from management and review of the minutes of meetings of the Board of Directors and Audit Committee. Review of the relevant information including case proceedings, related industry information and correspondences in respect of the ongoing litigations. Obtaining confirmation from the legal counsel of the Company to evaluate the status of the pending litigations and view point of the Company's legal counsel thereon. Examining legal and professional expenses to confirm that all pending legal matters are identified and disclosed. Re-computing the amounts of obligations and recorded liabilities based on available underlying information and confronted parameters. Assessing the appropriateness of the related disclosures made in the accompanying un-consolidated financial statements in light of IAS-37 "Provisions and Contingencies".

Information Other than the un-consolidated Financial Statements and Auditor's Report thereon

Management is responsible for the other information. The other information comprises the information included in the Annual report of the Company, but does not include the un-consolidated financial statements and our auditors' report thereon.

Our opinion on the un-consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the un-consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the un-consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Un-Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the un-consolidated financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of un-consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the un-consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Un-Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the un-consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these un-consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the un-consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the un-consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the un-consolidated financial statements, including the disclosures, and whether the un-consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the un-consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report

because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- the un-consolidated statement of financial position, the un-consolidated statement of profit or loss, the un-consolidated statement of comprehensive income, the un-consolidated statement of changes in equity and the un-consolidated statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The engagement partner on the audit resulting in this independent auditor's report is Fahad Ali Shaikh.

2 BASIS OF PREPARATION

2.1 Basis of measurement

These unconsolidated financial statements comprise of unconsolidated statement of financial position, unconsolidated statement of profit or loss, unconsolidated statement of comprehensive income, unconsolidated statement of cash flows and unconsolidated statement of changes in equity together with explanatory notes forming part thereof and have been prepared under the 'historical cost convention' except as has been specifically stated below in respective notes.

These unconsolidated financial statements are the separate financial statements of the Company in which investment in subsidiary has been accounted for at cost less accumulated impairment losses, if any.

These unconsolidated financial statements have been prepared following accrual basis of accounting except for statement of cash flows.

2.2 Statement of compliance

These unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.3 Functional and presentation currency

These unconsolidated financial statements are presented in Pakistan Rupees, which is the functional currency of the Company.

2.4 Critical accounting estimates and judgments

The preparation of unconsolidated financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience including expectations of future events that are believed to be reasonable under the circumstances. The areas involving a higher degree of judgment or complexity or areas where assumptions and estimates are significant to the financial statements, are as follows:

a) Defined benefit plan

Actuarial assumptions have been adopted as disclosed in note no. 8.4 to the unconsolidated financial statements for valuation of present value of defined benefit obligations.

b) Contingencies

The assessment of the contingencies inherently involves the exercise of significant judgment as the outcome of the future events cannot be predicted with certainty. The Company, based on the availability of the latest information, estimates the value of contingent assets and liabilities which may differ on the occurrence/non-occurrence of the uncertain future event(s).

c) Useful lives, pattern of economic benefits and impairments

Estimates with respect to residual values and useful lives and patterns of flow of economic benefits are based on the analysis of management of the Company. Further, the Company reviews the value of assets for possible impairment on an annual basis. Any change in the estimate in the future might effect the carrying amount of respective item of property, plant and equipment with the corresponding effect on the depreciation charge and impairment.

NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

d) Intangibles

The Company reviews appropriateness of useful life. Further, where applicable, an estimate of recoverable amount of intangible asset is made for possible impairment on an annual basis.

e) Impairment of investment in subsidiary company

In making an estimate of recoverable amount of the Company's investment in subsidiary company, the management considers break up value of shares as per audited financial statements of the subsidiary company of respective period.

f) Provision for obsolescence and slow moving stores and spares

Provision for obsolescence and slow moving spare parts is based on parameters set out by management, which includes ageing, expected use and realisable values.

g) Stock-in-trade

The Company reviews the net realisable value of stock-in-trade to assess any diminution in the respective carrying values. Net realisable value is determined with reference to estimated currently prevailing selling price/market price less estimated expenditures to make the sales.

h) Impairment of financial assets

The Company reviews the recoverability of its financial assets i.e. trade debts, advances and other receivables to assess amount of doubtful debts and allowance required there against on annual basis. While determining impairment allowance, the Company considers financial health, market and economic information, aging of receivables, credit worthiness, credit rating, past records and business relationship.

i) Taxation

The Company takes into account relevant provisions of the prevailing income tax laws and decisions taken by the Taxation Authorities, while providing for current and deferred taxes as explained in note no. 3.5 of these unconsolidated financial statements. Deferred tax calculation has been made based on estimate of expected future ratio of export and local sales based on past history.

2.5 New and revised standards and interpretations

a) New and amended Standards and Interpretations became effective during the year:

Details of new and amended standards and interpretations mandatory for the first time for the financial year beginning on July 1, 2018 are as under:

IAS 40 'Investment Property' amendments to clarify transfers or property to, or from, investment property (Effective for annual periods beginning on or after 1 January 2018)

The amendment clarifies that an entity shall transfer a property to, or from, investment property when, and only when there is a change in use. A change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. In isolation, a change in management's intentions for the use of a property does not provide evidence of a change in use. The amendment is not relevant to the Company's unconsolidated financial statements.

IFRS 2 – Classification and Measurement of Share Based Payment Transactions (Amendment) (Effective for annual periods beginning on or after 1 January 2018)

The amendments cover three accounting areas (a) measurement of cash-settled share based payments; (b) classification of share based payments settled net of tax withholdings; and (c) accounting for a modification of a share-based payment from cash-settled to equity-settled. The new requirements could affect the classification and/or measurement of these arrangements and potentially the timing and amount of expense recognized for new and outstanding awards. The amendment is not relevant to the Company's unconsolidated financial statements.

IFRS 4 – Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts (Amendment) (Effective for annual periods beginning on or after 1 January 2018)

The amendments provide two options for entities that issue insurance contracts within the scope of IFRS 4:

- an option that permits entities to reclassify, from profit or loss to other comprehensive income, some of the income or expenses arising from designated financial assets (the "overlay approach");
- an optional temporary exemption from applying IFRS 9 for entities whose predominant activity is issuing contracts within the scope of IFRS 4 (the "deferral approach")

The amendment is not relevant to the Company's unconsolidated financial statements.

IFRS 9 'Financial instruments' (Effective for annual periods beginning on or after 1 July 2018)

IFRS 9, 'Financial instruments', has replaced the guidance in IAS 39. This includes requirements for recognition and measurement, impairment, derecognition and general hedge accounting for financial assets and financial liabilities. The impact of application in this new standard is disclosed below.

IFRS 9 replaces IAS 39 that relate to the recognition, classification and measurement of financial assets and financial liabilities, derecognition of financial instruments, impairment of financial assets and hedge accounting. The adoption of IFRS 9 Financial Instruments from 01 July 2018 resulted in changes in titles of classification and presentation of the financial instruments and related accountign policies which are set out in note 3.17 and 3.19. The changes are summarized below

(i) Classification and measurement of financial assets and financial liabilities

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. However, it eliminates the previous IAS 39 categories for financial assets of held to maturity, loans and receivables, held for trading and available for sale. IFRS 9, classifies financial assets in the following three categories:

- fair value through other comprehensive income (FVOCI);
- fair value through profit or loss (FVTPL); and
- measured at amortized cost.

The Company's management while making assesment related to classification of the financial instruments has considered business model within which a financial asset is held, management's intentions with respect to collection of cashflows and trading of the financial instruments and accordingly the management has classified its financial instruments into the appropriate IFRS 9 categories. The following table below explains the original measurement categories under IAS 39 and the new measurement categories under IFRS 9 for each class of the Company's financial assets as at 01 July 2018 as disclosed in note 40.

NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Financial Instruments	Original classification under IAS 39	New classification under IFRS 9	Carrying Amount under IAS-39	Carrying Amount under IFRS-9
			Rs. 000s	
Loans, advances and other receivables	Loans and receivables	Amortised cost	380,556	380,556
Long term deposits	Loans and receivables	Amortised cost	202,959	202,959
Trade debts	Loans and receivables	Amortised cost	5,398,565	5,398,565
Cash and bank balances	Loans and receivables	Amortised cost	470,250	470,250

Retrospective application of changes in classification of financial assets due to adoption of IFRS 9 has no change in original carrying amounts of financial assets of the Company as there is no material impact due to change in measurement and classification categories. The adoption of IFRS 9 did not have a significant effect on the Company's accounting policies related to financial liabilities.

(ii) Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. IFRS 9 introduces a forward looking expected credit loss model, rather than the current incurred loss model, when assessing the impairment of financial asset in the scope of IFRS 9. The new impairment model applies to financial assets measured at amortized cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. As stated in note 3.18, the Company has applied simplified approach for estimating lifetime expected credit losses with respect to trade receivables and has determined that the application of IFRS 9's impairment requirement at 01 July 2018 results in no additional allowance for trade receivables.

IFRS 15 'Revenue from contract with customers' (Effective for annual periods beginning on or after 1 January 2018)

The IASB has issued a new standard for the recognition of revenue. This new standard has replace IAS 18 which covered contracts for goods and services and IAS 11 which covered construction contracts. The new standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer – so the notion of control replaces the existing notion of risks and rewards. The focus of the new standard is to recognize revenue as performance obligations are made rather than based on the transfer of risk and rewards.

The Company manufactures and contracts with customers for the sale of textile products which generally include single performance obligation, i.e., transfer of goods. The management has concluded that control over the goods is retained by the Company before these are dispatched to the customer therefore revenue from sale of goods be recognised at the point in time when control of the asset is transferred to the customer, i.e., when the goods are dispatched to the customer. Invoices are generated and revenue is recognised at transaction price received / to be received at that point in time, as the control has been transferred to the customers. The Company pays commission upon certain sales contracts which are expensed out in line with relevant revenue recognition considering practical expedient.

The requirements of this IFRS 15 are generally consistent with the timing and amounts of revenue the Company recognised in accordance with the previous standard, IAS 18 and the Company used to follow same recognition principles as mentioned in new IFRS 15. Therefore, adoption of IFRS 15 at July 01 2018, do not have an effect on the unconsolidated financial statements of the Company except certain disclosure requirements which are stated at respective notes.

IFRIC 22 'Foreign currency transactions' (Effective for annual periods beginning on or after 1 January 2018)

The interpretation clarifies which date should be used for translation when a foreign currency transaction involves an advance payment or receipt. The related item is translated using the exchange rate on the date that the advance foreign currency was paid or received and the prepayment or deferred income recognised. The amendments do not have impact on the Company's financial statements.

The other new standards, amendments to approved accounting standards and interpretations that are mandatory for the financial year beginning on July 01, 2017 are considered not to be relevant or to have any significant effect on the Company's financial reporting and operations.

Annual improvements to IFRS standards 2014-2016 cycle. The new cycle of improvements addresses improvements to following approved accounting standards:

IFRS 12 Disclosure of Interests in Other Entities amendments resulting from Annual Improvements 2014-2016 Cycle clarifying certain fair value measurements (Effective for annual periods beginning on or after 1 January 2018)

The amendment clarifies that the requirements of IFRS 12 apply to an entity's interests that are classified as held for sale or discontinued operations in accordance with IFRS 5 - 'Non-current Assets Held for Sale and Discontinued Operations'. The amendment is not likely to have an impact on Company's unconsolidated financial statements.

IAS 28 Investments in Associates and Joint Ventures amendments resulting from Annual Improvements 2014-2016 Cycle clarifying certain fair value measurements (Effective for annual periods beginning on or after 1 January 2018)

This amendment clarifies that the election to measure an investment in an associate or a joint venture that is held by an entity and that is a venture capital organization, or other qualifying entity, at fair value through profit or loss is available for each investment in an associate or joint venture on an investment-by-investment basis, upon initial recognition. The amendment is not relevant to the Company's unconsolidated financial statements.

Annual improvements to IFRS standards 2015-2017 cycle. The new cycle of improvements addresses improvements to following approved accounting standards:

IFRS 3 Business Combinations and IFRS 11 Joint Arrangements –(Effective for annual periods beginning on or after 1 January 2018)

The amendments to IFRS 3 clarify that when an entity obtains control of a business that is a joint operation, it remeasures previously held interests in that business. The amendments to IFRS 11 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not remeasure previously held interests in that business. The amendment is not relevant to the Company's unconsolidated financial statements.

NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

The other new standards, amendments to approved accounting standards and interpretations that are mandatory for the financial year beginning on July 1, 2018 are considered not to be relevant or to have any significant effect on the Company's financial reporting and operations.

(b) Standards, Interpretations and Amendments not yet effective

The following standards, amendments and interpretations of approved accounting standards that have been published that are mandatory to the Company's accounting period beginning on or after the dates mentioned below:

IAS 1 Presentation of Financial Statements & Accounting Policies, IAS 8 Changes in Accounting Estimates and Error - Amendments regarding the definition of material (Effective for annual periods beginning on or after 1 January 2020)

The IASB issued Definition of Material (Amendments to IAS 1 and IAS 8) in October 2018 to clarify and align the definition of material. The new definition states that "information is material if omitting, misstating or obscuring it could reasonably be expected to influence the decisions of primary users of general purpose financial statements. The amendments to the definition of material will not have a significant impact on an entity's financial statements.

IAS 19 'Employee Benefits' amendments in Plan Amendment, Curtailment or Settlement (Effective for annual periods beginning on or after 1 January 2019)

The amendments in Plan Amendment, Curtailment or Settlement (Amendments to IAS 19) are:

- If a plan amendment, curtailment or settlement occurs, it is now mandatory that the current service cost and the net interest for the period after the remeasurement are determined using the assumptions used for the remeasurement.
- In addition, amendments have been included to clarify the effect of a plan amendment, curtailment or settlement on the requirements regarding the asset ceiling. The amendments are unlikely to have any material impact on the Company's unconsolidated financial statements.

IAS 28 'Investments in Associates and Joint Ventures' (Effective for annual periods beginning on or after 1 January 2019)

The amendments in Long-term Interests in Associates and Joint Ventures (Amendments to IAS 28) are:
 -Paragraph 14A has been added to clarify that an entity applies IFRS 9 including its impairment requirements, to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture but to which the equity method is not applied.
 -Paragraph 41 has been deleted because the IFRS Board felt that it merely reiterated requirements in IFRS 9 and had created confusion about the accounting for long-term interests. The amendment is not likely to have a material impact on the Company's unconsolidated financial statements.

IFRS 3 Business Combinations Amendments to clarify the definition of a business (Effective for annual periods beginning on or after 1 January 2020)

The IASB has issued amendments aiming to resolve the difficulties that arise when an entity determines whether it has acquired a business or a group of assets. The amendments clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The amendments include

an election to use a concentration test. The amendment is not likely to have a material impact on the Company's unconsolidated financial statements.

Amendment to IFRS 9 'Financial Instruments' - Prepayment Features with Negative Compensation (effective for annual periods beginning on or after 1 January 2019)

For a debt instrument to be eligible for measurement at amortised cost or fair value through other comprehensive income, IFRS 9 requires its contractual cash flows to meet the SPPI criterion - i.e. the cash flows are 'solely payments of principal and interest'. Some prepayment options could result in the party that triggers the early termination receiving compensation from the other party (negative compensation). The amendment allows that financial assets containing prepayment features with negative compensation can be measured at amortised cost or at fair value through other comprehensive income (FVOCI) if they meet the other relevant requirements of IFRS 9. The amendments are unlikely to have any material impact on the Company's unconsolidated financial statements.

IFRS 16 'Leases' (Effective for annual periods beginning on or after 1 January 2019)

IFRS 16 will affect primarily the accounting by lessees and will result in the recognition of almost all leases on statement of financial position. The standard removes the current distinction between operating and financing leases and requires recognition of an asset (the right to use the leased item) and a financial liability to pay rentals for virtually all lease contracts. An optional exemption exists for short-term and low-value leases. The accounting by lessors will not significantly change. Some differences may arise as a result of the new guidance on the definition of a lease. Under IFRS 16, a contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company has yet to assess the full impact of this standard on its unconsolidated financial statements.

IFRIC 23 'the Accounting for uncertainties in income taxes' (Effective for annual periods beginning on or after 1 January 2019)

This Amendment clarifies the accounting for income tax when there is uncertainty over income tax treatments under IAS 12. The interpretation requires the uncertainty over tax treatment be reflected in the measurement of current and deferred tax. This IFRIC is not likely to have a material impact on Company's unconsolidated financial statements.

Annual improvements to IFRS standards 2015-2017 cycle. The new cycle of improvements addresses improvements to following approved accounting standards:

IAS 12 - Income Taxes (Effective for annual periods beginning on or after 1 January 2019)

This amendment clarifies that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognised consistently with the transactions that generated the distributable profits - i.e. in profit or loss, other comprehensive income or equity. The amendments are not likely to have material impact on the Company's unconsolidated financial statements.

IAS 23 - Borrowing Costs (Effective for annual periods beginning on or after 1 January 2019)

The amendment clarifies that the general borrowings pool used to calculate eligible borrowing costs exclude only borrowings that specifically finance qualifying assets that are still under development or construction. Borrowings that were intended to specifically finance qualifying assets that are now ready for their intended use or sale or any non-qualifying assets are included in that general pool. The amendments are not likely to have material impact on the Company's unconsolidated financial statements.

NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS

Amendments to references to Conceptual Framework for Financial Reporting (Effective for annual periods beginning on or after 1 January 2020)

On March 29, 2018, the International Accounting Standards Board (the IASB) has issued a revised Conceptual Framework for Financial Reporting which is applicable immediately and contains changes that will set a new direction for IFRS in the future. The Conceptual Framework primarily serves as a tool for the IASB to develop standards and to assist the IFRS Interpretations Committee in interpreting them. It does not override the requirements of individual IFRSs and any inconsistencies with the revised Framework will be subject to the usual due process – this means that the overall impact on standard setting may take some time to crystallise. The companies may use the Framework as a reference for selecting their accounting policies in the absence of specific IFRS requirements. In these cases, companies should review those policies and apply the new guidance retrospectively as of January 01, 2020, unless the new guidance contains specific scope outs.

3 SIGNIFICANT ACCOUNTING POLICIES

3.1 Foreign currency transactions and translation

All monetary assets and liabilities denominated in foreign currencies are retranslated into Pak Rupees at the rates of exchange prevailing at the reporting date.

All non-monetary items are translated into Pak Rupees at the rates on date of transaction or on the date when fair values are determined.

Transactions in foreign currencies are translated into Pak Rupees at exchange rate prevailing at the date of transaction.

Foreign exchange gains and losses on translation or realization are recognised in the unconsolidated statement of profit or loss.

3.2 Staff retirement benefits

Defined contribution plan

The Company operates a recognized provident fund scheme for its eligible employees to which equal monthly contribution is made by the Company and the employees at the rate of 8.33% of the basic salary. The Company's contribution is charged to unconsolidated statement of profit or loss.

Defined benefit plan

The Company operates unfunded gratuity schemes for all its eligible employees who are not part of the provident fund scheme. Benefits under the scheme are vested to employees on completion of the prescribed qualifying period of service under the scheme. The Company's obligation is determined through actuarial valuations carried out periodically under the 'Projected Unit Credit Method'. The latest valuation was carried out as at June 30, 2019. The results of valuation are summarized in note no. 8.

Current service cost, past service cost and interest cost is recognized in statement of profit or loss. Remeasurement gains and losses arising at each valuation date are recognized fully in other comprehensive income.

3.3 Accumulated employee compensated absences

The Company provides for compensated absences for all eligible employees in the period in which these are earned in accordance with the rules of the Company.

3.4 Provisions and contingencies

Provisions are recognized when the Company has present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the outflow of resources embodying economic benefits is not probable, a contingent liability is disclosed, unless the possibility of outflow is remote.

Provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

3.5 Taxation

Current

Provision for current tax is based on the taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year. The charge for current tax also includes impact of available tax credits and adjustments, where considered necessary, to provision for taxation made in previous years arising from assessments framed during the year for such years.

Deferred

Deferred tax is accounted for using liability method in respect of all temporary differences arising from differences between the carrying amount of assets and liabilities in the unconsolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse, based on tax rates that have been enacted or substantively enacted by the reporting date. Deferred tax is charged or credited in the unconsolidated statement of profit or loss, except that it relates to items recognized in other comprehensive income or directly in equity. In this case, tax is also recognized in other comprehensive income or directly in equity, respectively.

NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

3.6 Borrowings

Borrowings are recorded at the amount of proceeds received/fair values and are subsequently recorded at amortized cost using the effective interest rate method whereby the differences, if any, between the proceeds of borrowings and redemption values is amortised over the period of borrowing.

3.7 Borrowing cost

Borrowing costs are recognized as an expense in the period in which these are incurred except to the extent of borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset. Such borrowing costs are capitalized as part of the cost of that asset up to the date of its commissioning.

3.8 Trade and other payables

Liabilities for trade and other payables are recognized at cost which is the fair value of the consideration to be paid for goods and services received plus significant directly attributable costs and these are subsequently measured at amortised cost.

3.9 Property, plant and equipment

3.9.1 Operating fixed assets

Recognition/Measurement

The cost of an item is recognised as an asset if and only if the future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. Operating fixed assets are stated at cost less any accumulated depreciation and any accumulated impairment losses except leasehold land which is stated at cost.

Subsequent Cost

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to statement of profit or loss during the period in which they are incurred. The costs of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits associated with the part will flow to the Company and its cost can be measured reliably.

The costs of day-to-day servicing of property, plant and equipment are recognized in unconsolidated statement of profit or loss as incurred.

Depreciation

Depreciation is charged on all depreciable assets using reducing balance method except for structure on lease hold land / rented property and specific office equipment (i.e. I.T. equipment and mobile phones) and turbines in plant and machinery, which are depreciated at straight line method. These assets are depreciated at rates specified in the note no. 14.1. Depreciation is charged on additions on monthly basis i.e. from the month in which it is capitalized till the month prior to the month of its derecognition. Depreciation is charged on the assets even if the assets are idle. No amortization is provided on lease hold land since the leases are renewable at the option of the lessee at nominal cost and their realisable values are expected to be higher than respective carrying values.

Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount of the relevant assets. These are included in unconsolidated statement of profit or loss in the period of derecognition.

3.9.2 Capital work-in-progress

Capital work-in-progress is stated at cost accumulated up to the reporting date less impairment, if any. Cost represents expenditure incurred on property, plant and equipment in the course of construction, acquisition, installation, development and implementation. These expenditures are transferred to relevant category of property, plant and equipment as and when these are available for intended use.

3.10 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment, if any. Amortization is charged over the useful life of assets on a systematic basis to income by applying the straight line method at the rate specified in note no. 15.1.

Intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less costs to sell or value in use.

3.11 Investments in subsidiary

Investment in subsidiary company is stated at cost in these separate financial statements. The carrying amount of investments is reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists the investment's recoverable amount is estimated which is the higher of its value in use and its fair value less cost to sell. An impairment loss is recognised if the carrying amount exceeds its recoverable amount. Impairment losses are recognised in unconsolidated statement of profit or loss.

3.12 Stores and spares

Stores and spare parts, except goods-in-transit, are stated at moving average cost less provision for slow moving/obsolete items. Cost of goods-in-transit includes invoice/purchase amount plus other costs incurred thereon up to reporting date.

3.13 Stock-in-trade

Stock of raw materials, except for those in transit, work-in-process and finished goods are valued at lower of weighted average cost and net realisable value. Waste products are valued at net realisable value. Cost of raw materials and trading stock comprises of the invoice value plus other charges incurred thereon. Cost of work-in-process and finished goods includes cost of direct materials, labour and appropriate portion of manufacturing overheads. Items in transit are stated at cost comprising invoice value and other incidental charges paid thereon up to reporting date.

Net realisable value signifies the estimated selling prices in the ordinary course of business less costs necessarily to be incurred in order to make the sale.

NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

3.14 Trade and other receivables

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing component in which case such are recognised at fair value and subsequently at amortised cost. An allowance is made for lifetime expected credit losses using simplified approach as mentioned in note 3.18. Trade debts are written off when there is no reasonable expectation of recovery, i.e., when these are considered irrecoverable.

3.15 Revenue recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable and is recognized on following basis:

- Revenue from sale of goods is recognised when or as performance obligations are satisfied by transferring control of a promised good or service to a customer, and the control transfers at a point in time, i.e. at the time the goods are despatched / shipped to customer. Revenue is measured at fair value of the consideration received or receivable, excluding discounts, returns rebates and government levies.
- Profit on deposits with banks is recognized on time proportion basis taking into account the amount outstanding and rates applicable thereon.
- Duty draw back on export sales is recognized on an accrual basis at the time of export sale.
- Processing charges are recorded when processed goods are delivered to customers.
- Dividend income is recognized when the Company's right to receive the payment is established.
- Interest on loans and advances to employees is recognized on the effective interest method.

3.16 Financial Instruments

Financial instruments include deposits, trade debts, loans and advances, other receivables, cash and bank balances, long-term financing, short-term borrowings, accrued mark-up and trade and other payables etc. Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of instrument.

3.16.1 Initial Recognition

All financial assets and liabilities are initially measured at cost which is the fair value of the consideration given or received. These are subsequently measured at fair value or amortised cost as the case may be.

3.16.2 Classification of financial assets

The Company determines the classification of financial assets at initial recognition. The classification of instruments (other than equity instruments) is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics. A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

The Company classifies its financial instruments in the following categories:

- at amortised cost.
- at fair value through profit or loss ("FVTPL"),
- at fair value through other comprehensive income ("FVTOCI"), or

Financial assets that meet the following conditions are classified as financial assets at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are classified as financial assets at FVTOCI:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are classified as financial assets at FVTPL.

3.16.3 Classification of financial liabilities

Financial liabilities are classified as measured at amortized cost or 'at fair value through profit or loss' (FVTPL). A financial liability is classified as at FVTPL if it is classified as held for trading, it is a derivative or it is designated as such on initial recognition.

3.16.4 Subsequent measurement

Financial assets and liabilities at amortised cost

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest / markup income, foreign exchange gains and losses and impairment are recognized in the unconsolidated statement of profit or loss. Any gain or loss on de-recognition is also recognized in the unconsolidated statement of profit or loss.

Financial assets at FVTOCI

These assets are subsequently measured at fair value. Dividends are recognized as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income. On derecognition of a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to unconsolidated statement profit or loss. In contrast, on derecognition of an investment in equity instrument which the Company has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to unconsolidated statement profit or loss, but is transferred to unconsolidated statement of changes in equity.

Financial assets and liabilities at FVTPL

These are subsequently measured at fair value. Realised and unrealised gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL and any interest / markup or dividend income are included in the unconsolidated statement profit or loss.

Where management has opted to recognise a financial liability at FVTPL, any changes associated with the Company's own credit risk will be recognized in other comprehensive income/(loss).

NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

3.17 Derecognition of Financial Instruments

The Company derecognises financial assets only when the contractual rights to cash flows from the financial assets expire or when it transfers the financial assets and substantially all the associated risks and rewards of ownership to another entity. The Company derecognises financial liabilities only when its obligations under the financial liabilities are discharged, cancelled or expired.

Any gain or loss on derecognition of financial asset or liability is also included to the unconsolidated statement profit or loss.

3.18 Impairment Financial assets

The Company recognises loss allowances for Expected Credit Losses (ECLs) in respect of financial assets measured at amortised cost at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- bank balances for whom credit risk (the risk of default occurring over the expected life of the financial instrument) has not increased since the inception.
- employee receivables.
- other short term receivables that have not demonstrated any increase in credit risk since inception.

The Company applies a simplified approach in calculating ECLs for trade receivables. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical / actual credit loss experience, analysis of current financial position of debtors, adjusted for forward-looking factors specific to the debtors.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Loss allowances for financial assets measured at amortised cost are deducted from the Gross carrying amount of the assets. The Gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Non-Financial assets

The carrying amount of non-financial assets is assessed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the recoverable amount of such assets is estimated.

An impairment loss is recognised if the carrying amount of a specific asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups.

Impairment losses are recognized in unconsolidated statement of profit or loss. Impairment losses recognized in respect of cash-generating units are allocated to reduce the carrying amount of the assets of the unit on a pro-rata basis. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

3.19 Offsetting of financial assets and liabilities

All financial assets and financial liabilities are offset and the net amount is reported in the unconsolidated statement of financial position if the Company has a legal enforceable right to set off the recognized amounts and intends either to settle on net basis or to realize the assets and settle the liabilities simultaneously.

The legally enforceable right must not be contingent on future events and must be enforceable in normal course of business and in the event of default, insolvency or winding up of the company or the counter parties.

3.20 Cash and cash equivalents

For the purpose of unconsolidated statement of cash flows, cash and cash equivalents comprises cash and cheques in hand and balances with banks on current, savings and deposit accounts less short-term borrowings.

3.21 Dividend and appropriation to reserves

Final dividend distributions to the Company's shareholders are recognized as a liability in the unconsolidated financial statements in the period in which the dividends are approved by the Company's shareholders at the Annual General Meeting, while the interim dividend distributions are recognized in the period in which the dividends are declared by the Board of Directors. Appropriations of profit are reflected in the unconsolidated statement of changes in equity in the period in which such appropriations are approved.

3.22 Segment reporting

Segment reporting is based on the operating (business) segments of the Company. An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relates to transactions with any of the Company's other components. An operating segment's operating results are reviewed regularly by the Chief Executive Officer (CEO) to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

Segment results that are reported to the CEO include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly administrative and other operating expenses and income tax assets and liabilities. Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment and intangible assets other than goodwill.

	Set back 1 Year	Set back 1 Year
Withdrawal rates	Age-Based	Age-Based
Retirement assumption	Age 60	Age 60

8.5 Associated Risks

a) Final Salary Risk (Linked to inflation risk)

The risk that the final salary at the time of cessation of service is greater than what we assumed. Since the benefit is calculated on final salary (which will closely reflect inflation and other macro economics factors), the benefit amount increases as salary increases with time.

b) Demographic Risk

Mortality Risk - The risk that the actual mortality experience is different than the assumed mortality. This effect is more pronounced in schemes where the age and service distribution is on the higher side.

Withdrawal Risk - The risk of actual of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

8.6 General Description

The scheme provides retirement benefits to all its eligible employees who are not part of the provident fund scheme and who have completed the minimum qualifying period of service. Actuarial valuation of the scheme is carried out periodically and latest actuarial valuation was carried out at June 30, 2019. The disclosure is based on information included in that actuarial report.

9.1.1 Accrued expenses include Infrastructure Cess amounting to Rs. 353 million (2018: Rs. 242 million). The Company along with other petitioners have challenged the imposition of Infrastructure Cess by the relevant Excise and Taxation Officer, Karachi through petition dated May 28, 2011. Furthermore, the Holding Company has also filed petition against Sindh Infrastructure Cess levied through the Sindh Finance Act, 1994. During the year end June 30, 2018 the Sindh Development and Maintenance of Infrastructure Cess Act, 2017 (the Act) was also enacted by the Province of Sindh against which the Company has filed constitutional petition dated October 14, 2017 in Honourable High Court of Sindh at Karachi wherein it is prayed that the Act and earlier laws and amendments be declared as void ab initio, illegal and unconstitutional. The Honourable High Court has allowed for interim relief to the Company till final judgment as allowed in other similar petitions. However, in view of the uncertainties in such matters, full amount has been expensed out in the unconsolidated financial statements.

9.1.2 The Company along with several other companies filed a suit in the Honorable Sindh High Court challenging the Notification via SRO No. (I) / 2015 dated August 31, 2015 regarding increase in the Gas rate tariff, on November 16, 2015 which was decided by the Honorable Sindh High Court in favor of the Company and thereafter the Government filed an appeal in the Divisional Bench of the Honorable Sindh High Court against the decision which has also been decided in favour of the Company. During 2017, the Oil and Gas Regulatory Authority (OGRA) had issued another notification dated December 30, 2016 and SSGC billed @ Rs.600 per MMBTU instead of Rs.488.23 per MMBTU. The Company along with others have filed petition in the Honorable Sindh High Court against the notification and the Honorable Court granted interim relief and instructed SSGC to revise bills at previous rate against security for the differential amount. The OGRA issued another notification dated October 04, 2018, revising the tariff effective from September 27, 2018, subsequent to said notification the Company paid the bills accordingly at the prevailing rates. Upto the September 2018 the Company has provided banker's verified various Cheques of aggregate amount Rs. 250.67 million (2018: Rs. 217.35 million) as security to Nazir of High Court Sindh and also, as a matter of prudence, maintained full provision up to the September 2018 amounting to aggregate Rs. 410.60 million (2018: Rs. 377.28 million) in these unconsolidated financial statements.

9.1.3 The Company along with several other companies has filed a suit in the Honorable Sindh High Court on December 18, 2015, challenging the charging of captive power tariff instead of Industry tariff rate to the Company, since the Company is producing electricity for its own consumption only, not for sale. The Honorable Sindh High Court has passed the interim orders for not charging the Captive power tariff rates and consequently restrained from taking any coercive action against the Company. The Oil and Gas Regulatory Authority (OGRA) has issued another notification dated October 04, 2018 revising the tariff effective September 27, 2018, subsequent to this notification the Company paid the bills accordingly at the specified rates. Upto the September 2018 the Company has provided banker's verified various cheques of Rs. 388.57 million (2018: Rs. 332.39 million) as security to Nazir of High Court of Sindh and also, as a matter of prudence, maintained provision made up to September, 2018 amounting to aggregate Rs. 626.23 million (2018: Rs. 570.05 million) in the unconsolidated financial statements.

9.2 These security deposit are utilised for the purpose of the business as per written agreements, in compliance with requirements of section 217 of the Companies Act 2017.

11.1 This includes Istisna (Shariah Compliant) amounting to Rs. 4,454 million (2018: Rs. 3,005 million) in local currency.

11.2 Short term borrowings are secured by pari passu hypothecation charge over stores and spares, stock-in-trade, trade debts and other receivables. Unavailed facility at the year end was Rs. 3,303 million (2018: Rs. 6,409 million). The facility for short term finance matures within twelve months. Short term borrowings include amount due to Habib Metropolitan Bank Limited, an associated company, of Rs. 959 million (2018: Rs. 964 million).

12 UNPAID DIVIDEND

Dividend payable includes the dividend amount Rs.16.1 million (2018: Rs.11.1 million) held by the Company, as referred in Note no. 4.2.2 pertaining to the Petitioners of the suit filed in the Honourable High Court of Sindh against the tax on bonus shares imposed through Finance Act 2014. The amount includes Rs. 12.3 million and Rs. 0.55 million (2018: Rs. 8.5 million and Rs. 0.38 million) of Gul Ahmed Holdings (Private) Limited and an Associated Company respectively.

13 CONTINGENCIES AND COMMITMENTS

13.1 The Company owns and possesses a plot of land measuring 44.04 acres in Deh Khanto, which is appearing in the books at a cost of Rs. 84 million (2018: Rs. 84 million). The Company holds title deeds of the land which are duly registered in its name. Ownership of the land has been challenged in the Honourable Sindh High Court by Karim Bux, Iqbal Rasheed and Mansoor Munawar who claim to be the owners, as this land was previously sold to them and subsequently resold to the Company. The claim of the alleged owners is fictitious and favourable outcome is expected by the Company. The legal counsel of the Company is of the view that the Company has a reasonable case and management is expecting favourable outcome so no provision is made there against.

13.2 The Company has filed a Petition in the Honourable Sindh High Court, dated March 30, 2008, against order passed by the Board of Trustees, Employees' Old-Age Benefits Institution (EOBI) for upholding the unjustified additional demand of payment raised by EOBI for accounting years 2000-01 and 2001-02 amounting to Rs. 50.83 million (2018: Rs. 50.83 million). This demand has been raised after lapse of more than two years although the records and books of the Company were verified by the EOBI to their entire satisfaction and finalization of all matters by EOBI. The Honourable Sindh High Court has already restrained EOBI from taking any action or proceedings against the Company. The legal counsel of the Company is of the view that the Company has a reasonable case and management is expecting favourable outcome so no provision is made there against.

13.3 The Company along with several other companies has filed a Consitution Petition No. 2206 of 2016 on April 18, 2016 against Employment Old Age Benefits Institution (EOBI) and others in the Honourable Sindh High Court against a notice issued by the EOBI to the Company to pay contribution at the revised rate of wages with retrospective effect. The Honourable Sindh High Court has already restrained EOBI from taking any coercive action against the Company. The matter is now pending before the court for final outcome and the legal counsel of the Company do not foresee any claim/losses that are likely to arise therefrom. Therefore the Company has not made provision to the extent of Rs. 119.6 million out of expected liability of Rs. 261.6 million.

13.4 The Company has filed a Constitution Petition in the Honourable Sindh High Court against the City District Government of Karachi for striking down the unjustified demand of payment of Ground Rent on October 17, 2011 and against which part payment of Rs. 2.6 million has been made. The Honourable Sindh High Court has already restrained the City District Government of Karachi from taking any coercive action against the Company. The legal counsel of the Company is of the view that the Company has a reasonable case and management is expecting favourable outcome so no provision is made for difference unpaid amount of Rs. 7.4 million.

NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

13.5 The Federal Board of Revenue (FBR) vide SRO 491(I)/2016 dated June 30, 2016 made certain amendments in SRO 1125(I)/2011 dated December 31, 2011 for disallowance of input tax adjustment on packing material of textile products. Consequently, input tax adjustments on packing material of textile products is not being allowed for adjustment with effect from July 01, 2016. The Company has challenged the disallowance of input tax adjustments on packing material in the Sindh High Court through suit No. 2381/2016 dated November 10, 2016 against Federation of Pakistan and others. The matter is pending before the honourable court for final outcome and the legal counsel of the Company do not foresee any liability that is likely to arise, hence no provision is made for amount of Rs 446.18 million.

13.6 On May 22, 2015 the Gas Infrastructure Development Cess (GIDC) Act, 2015 was promulgated whereby GIDC rates of Rs. 100 per MMBTU and Rs. 200 per MMBTU were fixed for industrial and captive power consumers, respectively. The GIDC Act, 2015 was made applicable with immediate effect superseding the GIDC Act, 2011 and GIDC Ordinance, 2014.

The matter regarding levy of the GIDC prior to promulgation of the GIDC Act, 2015 is presently indeterminate and subjudice. The Company along with several other companies has filed a suit in the Honorable Sindh High Court challenging the increase in GIDC through the GIDC Act, 2011, the GIDC Ordinance, 2014 and the GIDC Act, 2015, on July 22, 2015. The Honorable Sindh High Court has issued stay against recovery of the GIDC under the GIDC Act, 2011, the GIDC Ordinance, 2014 and the GIDC Act, 2015 and hence the Company has not paid GIDC under the above referred laws. No provision in respect of the GIDC Act, 2011 and GIDC Ordinance, 2014 is made in these unconsolidated financial statements amounting to Rs. 868.2 million (2018: Rs. 868.2 million).

The Honorable High Court of Sindh vide its judgment dated 26 October, 2016 have held GIDC Act 2015 ultra vires the Constitution. The Government thereafter has filed an appeal in the Sindh High court. However the management on prudent basis has recognized the provision under the GIDC Act, 2015 commencing from May 22, 2015 to the reporting date amounting to Rs. 2,327 million (2018: Rs. 1,725 million) in these unconsolidated financial statements.

13.6 The Company has filed a suit in the Honorable Sindh High Court on March 28, 2002 for recovery of Rs. 33.4 million (2018: Rs. 33.4 million) against sale of property included in other receivables note no.21. The legal counsel of the Company is of the view that the Company has a reasonable case and management is expecting favourable outcome so no provision is made there against.

13.8 The Company along with other petitioners challenged the constitutionality of the amendments brought into Workers' Welfare Fund Ordinance, 1971 through Finance Acts of 2006 and 2008, dated February 04, 2011. The Honorable Sindh High Court decided the matter in favour of the Government. The Company along with other petitioners filed an appeal in the Supreme Court of Pakistan against the above decision. During the year 2017 the Honorable Supreme Court has passed a judgment on November 10, 2016 declaring the insertion of amendments introduced in the Finance Acts 2006 and 2008 pertaining to Workers Welfare Fund (WWF) as unlawful and there by striking down the amendments introduced through these Finance Acts. Review petition has been filed by the Federal Government in the Honorable Supreme Court against the judgment. The Company does not expect any liability in this respect.

13.9 Various cases for reinstatement and settlement dues have been filed by the former employees of the Company which are pending for hearing or final outcome before various courts. There may arise financial liability in respect of these matters depending on the orders of the court as and when passed. Since the amount of financial liability is not ascertainable at this point of time and the favourable outcomes are expected in these cases, hence no provision has been made there against.

13.10 Company's tax audit for the tax year 2016 has been finalised and amendment order has been issued under section 122(i) of the Income Tax Ordinance 2001, wherein certain provisions and expenses aggregating to Rs. 338.2 million (having tax impact of Rs. 108.2 million) have been added back to the income as claimed in the deemed assessment, while super tax of Rs. 42.8 million has been levied. The Company is in the process of contesting the matter in appeal against amended order and the management believes that the aforementioned matter will ultimately be decided in favour of the Company. Accordingly, no provision is required to be made in these unconsolidated financial statements.

13.11 Guarantees and others

- Rs.1,034.7 million (2018: Rs. 839.3 million) against guarantees issued by banks which are secured by pari passu hypothecation charge over stores and spares, stock-in-trade, trade debts and other receivables. These guarantees includes guarantees issued by related party amounting to Rs. 893.3 million (2018: Rs. 770.8 million)
- Post dated cheques amounting to Rs.3,125 million (2018 : Rs. 3,440 million) are issued to Custom Authorities in respect of duties on imported items availed on the basis of consumption and export plans.
- Bills discounted amounted to Rs.4,876 million (2018: Rs. 1,292 million) including Bills discounted from associated company amounting to Rs 2,160 million (2018: Rs.1,005.5 million)
- Corporate guarantee of Rs 145.6 million (2018: Rs. 110.5 million), Rs. 660.5 million (2018: Rs. NIL) and Rs. 148.1 million (2018: Nil) have been issued to various banks in favor of subsidiary companies - GTM (Europe) Limited - UK, Gul Ahmed International FZC - UAE and Sky Home Corporation - USA respectively.

13.12 Commitments

- The Company is committed for capital expenditure as at June 30, 2019 of Rs. 2,838.2 million (2018: Rs. 1234.4 million).
- The Company is committed to minimum rental payments for each of following period as follows:

41 FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

Financial risk management objectives

The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, markup risk and price risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seek to minimize potential adverse effects on the Company's financial performance.

Risk Management is carried out under policies and principles approved by the Board of Directors. All treasury related transactions are carried out within the parameters of these policies and principles.

The information about the Company's exposure to each of the above risk, the Company's objectives, policies and procedures for measuring and managing risk and the Company's management of capital is as follows:

41.1 Market risks

Market risk is the risk that the fair value of future cash flows of the financial instrument may fluctuate as a result of changes in market interest / markups rates or the market price due to change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities, and liquidity in the market. Market risk comprises of three types of risks: currency risk, markup risk and other price risk. The Company is exposed to currency risk and markup risk only.

a) Currency risk

Foreign currency risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises mainly from future economic transactions or receivables and payables that exist due to transactions in foreign exchange.

Exposure to foreign currency risk

The Company is exposed to foreign currency risk arising from foreign exchange fluctuations due to the following financial assets and liabilities:

	2019	2018
	USD 000s	
Trade debts	20,178	23,375
Cash and bank balances	-	637
Trade and other payables	(1,384)	(673)
Net exposure	18,794	23,338

The Company manages foreign currency risk through due monitoring of the exchange rates, adjusting net exposure and obtaining forward covers where necessary.

NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Foreign currency commitments and guarantees outstanding at year end are as follows:

	2019	2018
	000s	
USD	14,108	27,976
EURO	10,655	7,336
JPY	37	2,325
CHF	6,859	-
CNY	2,817	-

The following significant exchange rates were applied during the year:

Rupee per USD

Average rate (Selling/Buying)	137.67/137.29	110.65 / 110.51
Reporting date rate (Selling/Buying)	164.5/164	121.60 / 121.40

Foreign currency sensitivity analysis

A five percent strengthening/weakening of the PKR against the USD at June 30, 2019 would have increased/ decreased the equity and profit/ loss after tax by Rs. 109.4 million (2018: Rs.99.16 million). This analysis assumes that all other variables, in particular markups, remain constant. The analysis is performed on the same basis for June 30, 2018.

The sensitivity analysis prepared in not necessarily indicative of the effects on profit for year.

b) Interest/mark-up rate risk

Interest/mark-up rate risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to change in the interest/mark-up rates. The Company has long term finance and short term borrowings at fixed and variable rates. During the year the Company has in order to avoid adverse effect of high interest/mark-up rate exercised the prepayment option.

The Company is mainly exposed to interest/mark-up rate risk on long and short term financing and these are covered by holding "Prepayment Option" and "Rollover Option", which can be exercised upon any adverse movement in the underlying interest/mark-up rates.

Financial assets include balances of Rs. 91.2 million (2018: Rs. 54.9 million) which are subject to interest/mark-up rate risk. Financial liabilities include balances of Rs.29,218 million (2018: Rs. 23,478 million) which are subject to interest/mark-up rate risk. Applicable interest/mark-up rates for financial assets and liabilities are given in respective notes.

Cash flow sensitivity analysis for variable rate instruments

At June 30, 2019, if markups on long term financing would have been 1% higher / lower with all other variables held constant, post tax profit for the year would have been Rs 65.93 million (2018: Rs 55.05 million) lower/higher, mainly as a result of higher/lower interest expense on floating rate borrowings.

At June 30, 2019, if markups on short term borrowings would have been 1% higher/lower with all other variables held constant, post tax profit for the year would have been Rs. 99.78 million (2018: Rs. 36.2 million) lower/higher, mainly as a result of higher/lower interest expense on floating rate borrowings.

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit and loss account. Therefore, a change in markup at the unconsolidated statement of financial position would not effect unconsolidated statement of profit or loss of the Company.

c) Other Price risk

Price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest or currency rate risk) whether those changes are caused by factors specified to the individual financial instrument or its issuer or factors affecting all similar financial instruments traded in the market. The Company is not exposed to equity price risk.

41.2 Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation without considering the fair value of the collateral available there against. Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.

Exposure to credit risk

Company's operating activities exposes it to credit risks arising mainly in respect of loans and advances, trade debts, deposits and other receivables and cash at bank. The maximum exposure to credit risk at the reporting date is as follows:

Note	2019	2018
	Rs. 000s	
Loans, advances and other receivables	474,810	380,556
Long term deposit	369,752	202,959
Trade debts - net of impairment allowance	7,071,272	5,398,565
Bank balances	263,088	436,444
	8,178,922	6,418,524

The Company manages credit risk as follows:

NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Loans, advances and other receivables

These loans are due from employees and are recovered in monthly installments deductible from their salaries. Retirement balances are also available for these employees against which balance can be adjusted in case of default. The Company actively pursues for the recovery of these loans and the Company does not expect that these employees will fail to meet their obligations, hence the Company no impairment allowance is required there against.

Other advances and receivables include bank guarantee margin, advance for investments and miscellaneous which neither past due nor impaired. The Company believes that based on past relationship, credit rating and financial soundness of the counter parties chances of default are remote and also there is no material impact of changes in credit risks of such receivables so no impairment allowance is necessary in respect of these advances and receivables.

Long Term Deposits

These are mainly held for rented premises and utilities with the counter parties which have long association with the Company and have a good credit history. The management does not expect to incur credit loss there against.

Trade debts

Trade debts are due from local and foreign customers. The Company manages credit risk inter alia by setting out credit limit in relation to individual customers, by obtaining advance against sales and/or through letter of credits and/or by providing impairment allowance for life time expected credit losses trade debts.

Export debts are secured under irrevocable letter of credit, document acceptance, cash against documents and other acceptable banking instruments. Further the majority of the customers have been transacting with the Company for several years. The Company actively pursues for the recovery of the debt and based on past experience and business relationship and credit worthiness of these customers, the Company does not expect these customers will fail to meet their obligations except for some past due trade debts against which adequate allowance for impairment have been made.

The Company has established an allowance for impairment of the trade debts that represent its estimate of expected (using simplified approach / provision matrix) based on actual credit loss experience over last year in respect of trade debts.

Aging of trade debts considered good including past due but not impaired is as follows:

Note	2019	2018
	Rs. 000s	
1 to 6 months	7,037,084	5,368,758
6 months to 1 year	32,977	22,326
1 year to 3 years	1,211	7,481
20	<u>7,071,272</u>	<u>5,398,565</u>

Management believes that the unimpaired balances that are past dues are still collectable in full, based on historical payment behaviour and review of financial strength of respective customers. Further, certain trade debtors are secured by way of Export Letter of Credit and Inland Letter of Credit which can be called upon if the counter party is in default under the terms of the agreement.

Bank balances

The Company limits its exposure to credit risk by maintaining bank accounts only with counter-parties that have stable credit rating.

The bank balances along with credit ratings are tabulated below:

Note	2019	2018
	Rs. 000s	
AAA	75,089	44,580
AA+	116,806	155,968
AA	49,967	2,275
A+	6,692	437
A1	100	162
A	823	1,557
A-	-	735
AA-	3,812	230,730
BBB-	9,799	-
23	<u>263,088</u>	<u>436,444</u>

Given these high credit ratings, management does not expect that any counter party will fail to meet their obligations.

Financial assets that are either past due or impaired

The credit quality of financial assets that are either past due or impaired can be assessed by reference to historical information and external ratings or to historical information about counter party default rates.

The management believes that there are no financial assets that are impaired except against which adequate impairment allowance has been made as a matter of prudence. The ageing of the past due and impaired trade debts is more than 3 months and less than 2 years.

NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

41.3 Liquidity risk

Liquidity risk represent the risk where the Company will encounter difficulty in meeting obligations associated with financial liabilities when they fall due. The exposure to liquidity risk along with their maturities is disclosed in respective notes and Note no 40.

The Company manages liquidity risk by maintaining sufficient cash in hand and at banks and ensuring the fund availability through adequate credit facilities. At June 30, 2019, the Company has Rs. 22,265 million (2018: Rs. 21,486 million) available borrowing limit from financial institutions. Unutilized borrowing facilities of Rs. 3,303 million (2018: Rs. 6,409 million) and also has Rs. 492 million (2018: Rs.470 million) being cash in hand and balances at banks. Based on the above, management believes the liquidity risk is insignificant.

41.4 Capital risk management

The primary objectives of the Company when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure.

The Company manages its capital structure and makes adjustment to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders or issue new shares.

The Company's strategy is to maintain leveraged gearing. The gearing ratios as at June 30, 2019 and 2018 were as follows;

	2019	2018
	Rs. 000s	
Total borrowings	28,999,085	23,353,807
Cash and bank	(491,984)	(470,250)
Net debt	28,507,101	22,883,557
Total equity	15,333,213	12,620,727
Total equity and debt	43,840,314	35,504,284
Gearing ratio (%)	65	64

The Company finances its operations through equity, borrowings and management of working capital with a view to maintain an appropriate mix amongst various sources of finance to minimize risk and borrowing cost.

42 FAIR VALUES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

The Company while assessing fair values uses valuation techniques that are appropriate in the circumstances using relevant observable data as far as possible and minimizing the use of unobservable inputs. Fair values are categorized into following three levels based on the input used in the valuation techniques;

- Level 1 Quoted prices in active markets for identical assets or liabilities that can be assessed at measurement.
- Level 2 Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 Inputs are unobservable inputs for the asset or liability Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

If inputs used to measure the fair values of an asset or a liability fall into different levels then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Transfers, if any, between levels of the fair value hierarchy is recognized at the end of the reporting period during which the transfer has occurred. The Company's policy for determining when transfers between levels in the hierarchy have occurred includes monitoring of changes in market and trading activity and changes in inputs used in valuation techniques.

As at year end the fair value of all the financial assets and liabilities approximates to their carrying values. The property plant and equipment is carried at cost less accumulated depreciation and impairment if any, except free-hold land, lease-hold land and capital work in progress which are stated at cost. Long term investments in subsidiaries represent the investment in unquoted shares of companies carried at cost. The Company does not expect that unobservable inputs may have significant effect on fair values. The fair values of forward exchange contracts is determined based on the forward exchange rates at the reporting date included in the level 2 of the fair value hierarchy.
